TRANSFER OF JACKSON MAY SOLVE POLICE ROW

City Hall Forces May Not Wait Civil Service Hearing or the Grand Jury Investigation—to Make Switch in City Council

HYNES PREPARES TO REVIEW ALL EVIDENCE

Petersen Explains He Has No Objection to Charges; Going Before County Body. But City Council Could Dispose of It

Rumors flew thick and fast in the City Hall today that investigation of the charges brought against Commissioner of Public Health and Safety F. E. Jackson by the grand jury would be postponed until after the transfer of the commissioner to the city council. Jackson's friends, on the other hand, demand that the District Attorney carry the matter forward for the grand jury to decide. The city councilmen who voted in favor of calling the District Attorney into the situation.

District Attorney W. H. L. Hynes is going ahead with his plan to carry the matter before the county's inquisitorial body as soon as possible. Hynes, according to his declarations, has already started the preliminary investigation. The grand jury's decision will be followed by sensational revelations. He will have a deputy at the hearing before the civil service board, at which the cases of the suspended commissioners will be discussed, and full reports made of the testimony.

District Attorney Hynes said today that before he calls the members of the grand jury to the city hall, he will conduct through his own office force a thorough investigation of the charges that have been made.

EDWARDS TO SUCCEED

In the City Hall it has been definitely settled, according to rumor, that W. H. Edwards, Commissioner of Revenue and Finance, is to receive the mantle of the department of Public Health and Safety. H. B. Anderson, Commissioner of Public Works, was approached with a proposition to succeed Jackson. He declined. The city council, however, has divisions, each complete in itself and involving considerable additional work. Anderson declared he preferred his present position.

Edwards' accession to Jackson's position, if made, would follow the exposure of the earlier part of the week, when Edwards insisted on the grand jury taking a hand in Oakland's municipal affairs "to place the responsibility."

Commissioner Harry B. Anderson of the public works department declared today that he would consider being transferred to the department of public health and safety.

PETERSEN WILLING

Chief of Police Petersen declared today that if the grand jury sees fit to probe into the affairs of the police department he is ready for the investigation. In no manner would he seek to hinder such a probe, he said. He pointed out that while he had stated previously that he made no charges before the grand jury, he did not intend to leave the impression that there was nothing for the inquisitorial body to investigate. He said:

"The grand jury can go as far as it likes into an investigation of the police department. I have made no charges, but if I am called before the grand jury I am ready. No matter what angle the probe might take, such things are detrimental to the city in general."

Although the hearing demanded by Captain Charles Bels, Corporal Herman Rumbach and other police officers will not take place before the civil service board till next Tuesday night, it was rumored at the city hall today that the ordinance transferring Commissioner Jackson from the department of public health and safety may be introduced in Council next Monday.

In the meantime the ordinance creating a sitting committee of the council as proposed by the civil service board, which was passed to print and was due to come up in Council yesterday, is being held up and probably will not be further considered until next week.

Slaying French Consul Is Denied by Villa

WASHINGTON, Jan. 5.—The State Department today received word denying that Villistas had killed French Consul Bernardino de Torreon and one of his sons. A previous report that the government was they had been slain.

Germany Requests Removal of Minister

WASHINGTON, Jan. 5.—Germany has requested the United States to remove its minister from Berlin.

Marriage License Is Hoax Another of Wedding Jokes

MISS HELEN BRILL, Oakland belle, and center of marriage license mystery.

Helen Brill Unmarried Still; Father Says She Never Will

Mystery surrounds the issuance of a marriage license in the names of Helen Brill, the beautiful 18-year-old daughter of Mr. and Mrs. John H. Brill, 4038 Brighton avenue, and Arnold J. Rath, 21, a wealthy young man of Hammond, Tulare county. The license was issued Wednesday afternoon, but there has been no marriage nor will there be one, according to the father of the young woman.

Miss Brill, who is a graduate of the Oakland High school, with the class of 1915 and a student in the State Normal school in San Francisco, was not at her home this morning and could not be interviewed on the subject of the mysterious occurrence. Her father, however, acted as her spokesman and uttered a denial of any romance in her life. He said:

Helen is greatly chagrined and annoyed at this unfortunate affair, which appears to have been a hoax.

upon her by someone. She denies that she was a party to the application for the license, or that she had been engaged to Rath. Her acquaintance with him has been a very short one, and there has been nothing to justify the implications of a sudden love affair.

My daughter met Rath as a party on New Year's eve in the home of Miss Frances Redman in Piedmont. I have never met the young man myself, nor have I had any communication with him. There is no marriage contemplated and there certainly has been no ceremony performed.

Rath cannot be located and it is supposed that he has returned to his home in Tulare. In the face of the denials of Miss Brill and her father and the absence of the bridegroom-to-be, the friends of the bride are accepting the theory of a hoax.

Broker's Family Makes Effort to Clear Son's Name

Suicide of Bernard Lewis Is Taken As Confession of Colbert Murder.

PITTSBURGH, Pa., Jan. 5.—The name of Bernard Wesley Lewis is to be cleared, if possible, of actual connection with the murder of Mabel Colbert. Newman A. Lewis, father of the spendthrift young broker, today planned an investigation with the hope of learning whether or not his son's suicide was an act denoting guilt or one of hysteria.

His mind is absolutely open, he said, though in his heart he hopes that Bernard Lewis' connection with the crime was not gross. Money will not be spared in the investigation, contemplated. The wealthy retired coal magnate is prepared to spend a goodly part of his fortune to bring out the truth. This, his friends declared today, is what he wants.

DEATH ACT OF CONFESSION

ATLANTIC CITY, N. J., Jan. 5.—Beyond his dramatic suicide, which in itself the police say was a confession of guilt, nothing has been found here to directly connect Bernard W. Lewis, son of the wealthy retired coal operator of Pittsburgh, with the murder of Mabel Colbert.

Cunha Defines Anarchism in Query to Juror

Attack on Cockran Defense of Mooney Outlined by Prosecution.

SAN FRANCISCO, Jan. 5.—A dissertation on anarchy, on the part it plays in the acceptance of aliens as citizens of the United States was given in question form by Assistant District Attorney Edward Cunha, in the examination of jurors in the trial of Thomas Mooney, for murder, in connection with the preparedness parade bomb explosion today. This examination was in the nature of a new line of attack upon the system adopted by Attorney Burke Cockran of New York, chief counsel for the defense.

QUESTION FRAMED

Born in Germany, Lupgens was naturalized twelve years ago. Cunha asked him whether he was not questioned then as to his being an anarchist, or believing in anarchy, and whether he did not know that if he had answered in the affirmative he

DISCOVERY MAY ADD TO BODY HEIGHT

Tethelin, Found by Scientist at U. C., to Increase Stature—May Have Important Effect in Treatment of Cancer

Substance Isolated From Little Known Pituitary Body in the Back of Skull; Bearing on a Reproduction Now Studied

BERKELEY, Jan. 5.—Discoveries of supreme importance with relation to the promotion of growth in the human body, the causes of the increase of cancer, and of other malignant growth and of the difference in stature and height of human beings and the relation of the pituitary body of the brain to the growth of the body are announced today at the University of California as a result of investigations which have been made for a number of months past by several professors and assistants in the department of physiology.

The isolation of tethelin, a substance produced from the anterior lobe of the pituitary body, a small body in the base of the human brain, is announced by Dr. T. B. Robertson, professor of biochemistry, for the first time in the history of biological science. It is the substance, Professor Robertson has found, which produces growth in the human body.

The logical inference held by the investigators now is that this substance may come to be used in a practical way, its use increasing bodily growth and exciting to function various organs of the body.

On this basis supplementary experiments have been conducted by Dr. C. Burnett, assistant professor of physiology, who has studied the effect of tethelin upon carcinoma, or cancer, and has found that it increases the growth of the tumor. He has found, by reverse inference, he believes, that the prevention of the action of tethelin upon the tissues of the body in which cancer has hold, the growth of the tumor is ultimately retarded in practice.

Dr. Samuel S. Maxwell, associate professor of physiology and head of the physiological department, has conducted a series of experiments on the effect of the pituitary body. He has set against previously held theories as to the retarding effect on growth of the products thereof, which are in line with the results obtained by Dr. Robertson. Important coordinate studies are being made by Miss Rosalind Vulken, instructor in physiology, into the effect of the content of tethelin on the processes of reproduction.

The highly important contributions made by these new discoveries to science may be summarized as follows:

Profound control over the growth of the human body is exercised by the contents of the pituitary body, weighing from five to ten grams, and situated in the bone at the base of the brain, consisting of a forward (anterior) portion, middle (pars intermedia) portion and a rear (posterior) portion.

Growth is directly promoted by a substance contained in the anterior lobe, to which the name of tethelin is now given.

Tethelin is isolated for the first time in the history of science by Dr. Robertson. From its isolation the natural supposition is entertained that its administration may be of great importance in the treatment of cancer, and weight of the human body, to renew inhibited growth and to promote advance toward normal size in stunted bodies.

Experiments indicate that tethelin is, however, in a large measure responsible for the growth of cancer and other malignant growths and that, by its removal, it may be possible to control the increase of such malignant growth by an inhibition of the production of tethelin.

Other experiments show that the contents of the pituitary body have a distinct effect upon the processes of reproduction, a further investigation of which may lead to the most important results upon phases of this process which hitherto have baffled science.

Investigation of the pituitary bodies has for the past few years excited the most ardent labors of the bio-chemists, physiologists and physicians of the world. Within very recent years it has become well understood that in some way these tiny bodies, hidden away in one corner of the brain, control the growth of the human body, where an osseous framework saved them from shock and jar had a most profound control over the growth of the human body.

Now not only has it been isolated by Dr. Robertson, but some appreciation, made possible of the enormous effect it exerts upon functions of the human body. Equally of importance are considered to be the investigations of Dr. Burnett in the vistas which they present of new methods of treating the dread disease of cancer and related affections of the body. Dr. Burnett is not yet ready to announce definitely that the treatment of cancer is affected by his new discoveries. He has found, in his investigations, however, that cancer is definitely and materially advanced in its growth by tethelin. A technique has now to be developed by which the opposite effect, that of a withdrawal of tethelin, can be brought about. At any rate, the scientists in the physiology department are agreed that the highest potentialities of this substance have not yet been reached.

CITY BUYER UNDER FIRE; PROBE ASKED

A. T. Kalas, Purchasing Expert for Oakland Charged With Showing Favoritism by W. P. Jones; Writes to City Council

Investigation of Department Is Asked; Accusation Is Denied by Official, Who Refuses to Make Further Statement

Charging that A. T. Kalas, city purchasing agent, has shown favoritism in buying supplies for the city, giving orders to personal friends with resulting higher cost of goods, W. P. Jones of the Jones Auto Supply Company in a communication to the city council today demanded an investigation of the affairs of the city's purchasing board. The matter was referred to Mayor Davis with instructions to take the proper steps towards affording the charges.

"The supplies are being bought at an old price from his friends only," that Purchasing Agent Kalas is utilizing the services of a city stenographer on city time, to transact private book orders for himself, and that competitors are not given an opportunity to sell goods in competition with his personal friends, were the charges involved in the communication. As a result, declared Jones, the city has been put to a large extra expense in conducting the purchasing agent's office.

MAYOR COMMENTS

After City Clerk Cummings had read the communication Mayor Davis said:

This is one of the reasons why I wanted an efficiency expert to visit and ask the civil service board to provide for such an office, which will be subject to my call for services. This is a matter that should have been in the hands of the civil service board. I would like the matter referred to me so that action can be taken.

Commissioner William J. Baccus of the street department commented that while the city is not a purchasing agent, it is a purchasing agent for the automobile supplies, which are purchased from the concern which the letter charged was particularly hostile to him.

WOMAN MAKES CHARGE

About a year ago charges of embezzlement were made against Kalas by Mrs. Olive Darnelle, a stenographer in his department, who addressed a lengthy communication to the city council, accusing him of embezzling \$10,000. As the result of the letter a hearing was had before the civil service board, which resulted in her discharge from her position, and Kalas declared today that the affairs of the department were in a deplorable condition. The letter was turned over to Mayor Davis today to be included in his handling of the situation.

The procedure now will include the hearing before the civil service board involving the possibility of that body declaring the position of purchasing agent vacant and calling for examinations for an eligible list. In that event the appointment of a new purchasing agent would be up to Mayor Davis.

THE COMPLAINT

In the protest made by the Jones company today it was related that the concern has not been accorded "just treatment" at the hands of the purchasing agent. It is alleged that goods offered the city on numerous occasions were on the days of the offers or shortly afterwards purchased from the company. Friends of the company, who are not named, are quoted by the Jones company.

Further, it is claimed that there is practically no competition in that line of supplies, as agents of other companies are repeatedly turned down by Kalas when they call upon him. W. P. Jones wrote:

This kind of purchasing certainly is not a saving to the city of Oakland. It has been going on practically ever since the purchasing agent was installed, and he has been running his department and buying at any old price from his personal friends who will do anything for him. I think that it is about time that some action is taken to clear up this corrupt purchasing department.

DENIES CHARGE

Purchasing Agent Kalas today denied the charge regarding his private interests as referred to in the Jones letter and refused to make a statement regarding the allegations of favoritism and suppression of competition.

Last Wednesday the council took action on the basis of the purchasing agent the drawing up of specifications for the gasoline contract for this year, Commissioner Baccus stating that the gasoline as purchased by Kalas was of the best quality and that it was also complained that the police department has been unable to obtain efficient results from the gasoline it has been forced to use and that the motor apparatus of the first department has been frequently stalled.

WILSON KIN AND TUMULTY NAMED IN 'LEAK' PROBE

Brother-in-Law of Executive Member of Firm Connected With Stock Manipulations CONGRESSMAN TESTIFIES

Wall-Street Operations Following "Tip" From the Capitol and Prior to Issuance of Message Told Committee

WASHINGTON, Jan. 5.—Smoldering rumors that somebody made money in the stock market with the leak information about sending of President Wilson's peace note blazed up today at a notable session of the House rules committee at its first hearing on Representative Wood's resolution for investigation.

Specific charges were made against no one and Wood was presenting only information that had come to him. Wood brought in the names of Secretary Tumulty, a Mr. Bolling, a brother of President Wilson's wife, whom he did not further identify, Bernard Baruch, a New York stock operator; Otto H. Kahn of Kuhn, Loeb & Company, Thompson & McKinnon and Lamson Brothers & Company, Chicago brokers; E. F. Hutton & Company, New York brokers, and F. A. Connolly & Company, Wall Street brokerage house, in which Wood said the "Mr. Bolling" he referred to was a partner.

TIP FROM NEW YORK BROKER

Much of his information, Wood said, came in a letter from A. Curtis, an independent New York stock operator. Wood disclaimed intention to give impression that he believed

Administration Wins Victory in Peace Note Row

Senate Votes to Continue Consideration; Lewis Blows War Horn

WASHINGTON, Jan. 5.—The administration won its first victory in the fight to gain endorsement of the Hittchcock resolution approving the President's message to Congress, which was passed by a vote of 141 to 107, to continue consideration of the note.

The vote was regarded as the first test of strength, though not necessarily a showdown, as to the final result of the vote. The resolution was adopted by a vote of 141 to 107, with 107 votes against continued consideration of it at this time.

I agree with Secretary Lansing or anybody else who says the war cannot continue without America being involved in it, said Senator Lewis while urging passage of the endorsement.

STARTLING SUDDENESS

Lewis thrust the war idea on the Senate with startling suddenness. America, he said, cannot proceed further in accepting apologies for justice done by him, commencing presumably referring to German submarine commanders.

I do not think we will ever again allow captains of ships, officers of armies or officers of diplomacy to deny invasion of this country an injury and escape with the excuse that orders were misunderstood or that the officers acted in excess of zeal, he said.

"The United States is the agent of morality in this step, and the President is to be admired by the world for it. This country cannot accept apology hereafter and will punish to the extent of her powers any such injury."

Greek Steamer Sunk; Twelve of Crew Safe

TARIS, Jan. 5.—The torpedoing of the Greek steamship Siliros is reported in a Havas dispatch from Corunna, Spain. Twelve men of the crew were saved by the fishing boat San Jose. A Havas dispatch from El Ferrol, Spain, says the captain and twelve members of the crew are to be rescued. The steamer was last seen to have been landed on the beach at Cobes.

Greek Government Will Reject Claims

LONDON, Jan. 5.—The Greek government, acting in harmony with the king, decided to reject certain clauses of the entente note demanding reparation in consequence of the recent fighting at Athens, Reuters correspondent at Athens, telegraphs.

RUSS FORCES DRIVEN TO LAST STAND

Capture of Galata, impending,
Means Loss of Slav Hold on
Danube; Mackensen in Per-
sistent Forward Movement

Artillery Fighting Continues on
Verdun Front; Reports Un-
eventful on This Line; Heav-
iest Fray in Rumanian Sector

The Rumanian Danube port of Braila, important as a granary and oil storage depot, apparently is in imminent danger from the converging attacks of Field Marshal von Mackensen's forces on both sides of the Danube.

On the westerly side of the stream, where Braila lies, the bridgehead position protecting it has been pierced by the Austro-German forces, according to today's German army headquarters statement.

To the east, across the river in Dobruja, the German and Bulgarian forces which captured the Matchin bridgehead are continuing their advance toward the town.

This forward movement, moreover, threatens not only Braila, but the town of Galata, twelve miles to the north, the capture of which would deprive the Russians of virtually their last hold on the shores of the Danube west of the Bessarabian boundary.

Von Mackensen's attacks on the frontal line of the section running northwestward from Braila, to which line the Russo-Rumanian forces have retired, are progressing successfully, according to Berlin, which reports the capture of two additional towns in the Timnik Sarat sector.

On the northern end of the front in Russia the German lines have been subjected to attacks in the Riga-Dvinsk district. The Russian offensive here, centering in the vicinity of Friedland, is apparently of an important nature, Berlin reporting the fighting still in progress.

ARTILLERY IS BUSY.
PARIS, Jan. 5.—Active artillery firing last night on the Verdun front in the vicinity of Douaumont and Vaux, the war office announces. Elsewhere the night passed quietly.

An official report from the Macedonian front, issued here today, says that engagements occurred on Wednesday among advance posts in the sector held by the Serbians.

The announcement follows:
During the night the artillery was rather active in the sectors of Douaumont and Vaux.

Twenty of our aviators last night carried out various bombing expeditions. Matigny, Harcourt, Plet and Eernes, the railway stations at Pouilly Athies and Villacourt and the barracks at Roye were bombarded with numerous projectiles.

Divorced Man in Serious Trouble

Weds Again; Alimony
Makes It Expensive

When a couple are divorced and there is a minor child and provision has been made for its support, the man should not be permitted to marry again until he can support two establishments.

This is the theory of Superior Judge T. W. Harris, who today denied to Frank H. Mason a reduction in his alimony payments to his wife, Charlotte G. Mason, from whom he was divorced in February, 1916. After Mason was free to wed again he took to himself a second spouse and attempted to support himself, his new wife and a child by the first Mrs. Mason in one home, while he paid Mrs. Mason No. 1 \$25 per month for herself and a second child. Earning \$100 per month he soon found himself \$700 in debt.

So he induced Deputy District Attorney W. B. Smith to appeal by way of a motion to the equity of the court and ask for a slight modification that would allow five people to live in two homes on \$100.

But Judge Harris was unmoved. Mason's creditors threaten to plunge him into court unless the \$700 is paid. His first wife is working.

Two-Job Test Case Trial Draws Crowd

Superior Judges W. H. Waste and W. B. Donahue, sitting en banc, are today hearing arguments on the application of Deputy District Attorney William Satterwhite for a writ of mandamus against County Auditor Frank Garrison, which application is intended to test the amendment which prohibits members of the legislature from holding any other office during their term of service as a legislator.

Assistant District Attorney James Koford appears for the county auditor while Attorney D. C. Dutton represents Satterwhite. When the hearing was called this morning, the courtroom was crowded with attaches of the various county departments who are watching the decision with considerable interest.

Villa Drives Toward Chihuahua Past Army

EL PASO, Jan. 5.—Villa is forcing his way through General Murgula's army of government troops and is nearing Chihuahua City today, according to advices reaching the border. An exodus of alarmed residents of the northern capital has started.

The Carranzista authorities granting refugees a free train to the border. The deciding battle for possession of the city is being fought near Horcasitas.

Y. W. C. A. VESPER SERVICE

The musical vesper service of the Young Women's Christian Association tomorrow, at 8:30 o'clock, will be given under the direction of William W. Carruth. The program will be furnished by Mrs. Kathryn Gail Morris, soprano; Mrs. Edna Fisher Hall, contralto; William W. Carruth, accompanist.

Jury Choosing Progresses Slowly in Mooney Trial

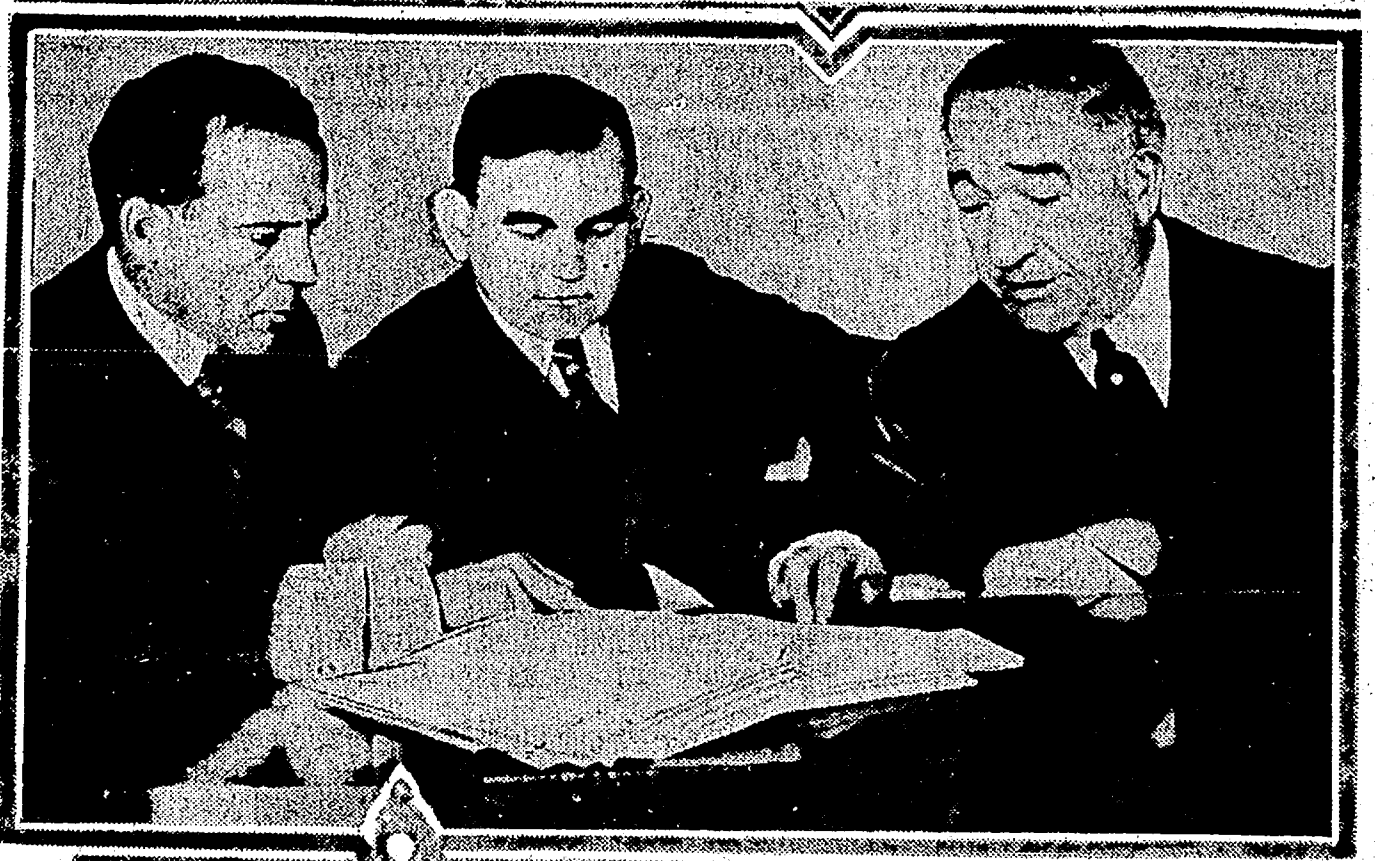

Photo shows lawyer for the defense, Maxwell McNutt. Defendant Thomas J. Mooney and W. Bourke Cockran of New York seated around the counsel table.

TALESMEN'S MINDS DISSECTED IN COURT

(Continued From Page 1)

would have been denied citizenship papers. He answered that such had been the questions and that he had denied his affiliation with any such organization and that he would return the same response now. He was then asked as to whether he did not know that since the preparedness parade federal judges had been even more careful in inquiring as to the anarchistic tendencies of prospective citizens.

This question, objected to by Cockran, was ruled out. It developed that Luggens was prejudiced against all anarchists and the challenge by the defense was allowed.

ONLY THREE LEFT.
William V. MacNevin, a real estate broker, was next examined.

Only three out of the ten talesmen examined yesterday passed the ordeal of questioning to the satisfaction of the defense. Every one who admitted that he had formed an opinion in the case or that he was prejudiced against socialists and anarchists was excused for cause. Three were allowed to go for this reason, two because they seemed imperfectly acquainted with the niceties of the English language, and one because of impaired hearing.

The nine men in the box this morning are:
John Gold, 561 Dolores street;

Julius Abrams, 78 Fair Oaks street; William O. Banks, 2325 Larkin street; M. J. Hanrahan, 410 Ashbury street; Charles M. Depew, 308 San Jose avenue; Patrick Mulvihill, 242 Downey street; Garrett P. Callahan, 261 Buena Vista avenue; Solomon Bibb, 142 Twentieth avenue; Samuel H. Shepley, 1397 Geary street.

WATCH "PROFESSIONALS."
John Doelker, 1460 Underwood avenue, who was excused because of his unfamiliarity with English usage, had a narrow escape from being challenged as a professional juror. The records showed that he had served in 1912, 1913 and 1914. Edward Wormell, 316 Douglas street, excused for prejudice, had a similar close shave. He had served in 1912, 1913, 1914 and 1915. Maurice Foley, 1415 San Bruno avenue, was excused as a professional juror.

Heinrich Ethofer, 1330 San Bruno avenue, was excused when the attorneys for the defense found that he did not know the meaning of the word "inference." After he had called it "impudence" and "inference," he finally defined it thus: "You see it's like this: the witness says so and so, and then you have it, or else no."

The questioning became so close and searching at times that the talesmen took on the aspect of subjects in a psychological laboratory. Attorney McNutt declared that no man was going to be sworn on the jury who could not pass an examination in intelligence.

BERKMAN IS SOUGHT.
Alexander Berkman, editor of "The Blast," the radical weekly paper, raided by the police last week, will be arrested if he returns to San Francisco, according to the statement of Edward A. Cunha, assistant district attorney. He will be used as a state's witness, says that official, with the reserved right to prosecute him with the other defendants. The basis for the arrest would be the fact that he was engaged in collecting money for the defense of Mooney, Phillips, Nolan and Weinberg, and that he wrote to Miss Eleanor Fitzgerald, assistant editor of "The Blast," that "he was accumulating material for another Blast."

**High Living Cost Is
Causing Courts Woe**

SAN FRANCISCO, Jan. 5.—And now the high cost of living has struck the courts of law.
Judges are having difficulty in getting working folks to serve on juries, because they "can't afford to."

"Out of more than 200 men who have been placed on the list for the Mooney trial," said Superior Judge Franklin Griffin today, "more than fifty asked to be dismissed because they are working men. They said they had families to support and couldn't do so on the \$2 a day received for jury duty. Other courts are having similar trouble."

are inherent in Dr. Burnett's discoveries.

The experiments of Miss Wulzen on the effect of tethelin on the reproductive processes are still in an early stage. Similar investigations are being carried on in several laboratories in this country and even abroad, where the European conflict has not entirely obliterated scientific progress. Miss Wulzen is continuing her experiments, and it is expected that important results will ultimately be made possible of announcement.

Commenting today upon his discoveries, Professor Robertson made the following statement:

Former Regent Under Arrest As Embezzler

ROME, Jan. 5.—Olinto Amati, twice regent of the republic of San Marino, has been arrested on a charge of embezzling two million lire of the republic's funds, according to a despatch from Rimini, the capital of San Marino. He is reported to have made a number of unsuccessful speculations.

Evacuation of West May Be Teuton Offer

AMSTERDAM, Jan. 5.—Great significance was attached to passage by Austro-German censors today of a quotation from the Vienna newspaper Arbeiter Zeitung, asking the government to "discover if the entente would be ready to negotiate peace after an evacuation by Teutonic troops in the west, and if so, that the evacuation be made immediately."

I believe that this is the first time that tethelin has been isolated and an opportunity afforded for a minute study of its composition and effects. Experiments are being conducted now which have already given us indication that its administration will correct arrested growth and actually add to the stature and weight of the human body. How far this process may be influenced by tethelin we are as yet not ready to say. Our investigations are, however, very rapidly bringing us to the point where we may be able to offer definite public announcements.

Attorney-General to Probe Paper Prices

WASHINGTON, Jan. 5.—Attorney-General Gregory had in his hands today the fruit of the Federal Trade Commission's inquiry into the news print paper industry, with the intention of instituting civil and criminal actions if it found a paper trust has been formed.

"I know, of course, from what has already been brought out," wrote the attorney-general to the Trade Commission, referring to the committee's investigation, "that a serious condition exists in this trade and that any remedy which the law may afford should be applied at once."

President Wilson is said to be actively interested in the paper situation. The commission expects to report to Congress within a few days the result of its inquiry.

A rich, hot cup of INSTANT POSTUM with sugar and cream is a most delicious beverage.

Try it!—particularly if you are one of those with whom coffee disagrees.

A dozen years ago POSTUM drinkers were comparatively few. To-day, this table drink is served on railway trains, on ocean steamers, at leading hotels and restaurants, and millions use POSTUM instead of coffee at home.

POSTUM has become popular because it is popular to be healthy.

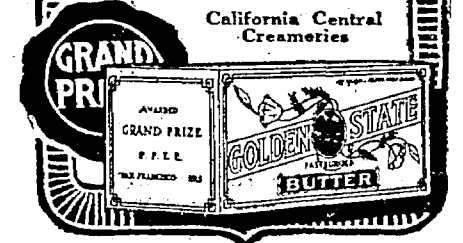

"There's a Reason"

Governor Issues Many Pardons to Convicts

LITTLE ROCK, Ark., Jan. 5.—Governor George W. Hayes, who will go out of office next Tuesday, has pardoned forty-four State convicts, making a total of 112 pardons. He has issued since December 1. He announced he will issue two or three more. The list of those pardoned today included nineteen men convicted of murder.

Captains "Talk," And Woe Reigns

Australia, With Old Apparatus Cut Out

WASHINGTON, Jan. 5.—Garulous American sea captains, talking with each other by wireless, have brought down on their heads the wrath of Australian government officials. It was learned today. Complaint has reached Washington that American ships 2000 miles apart in the South Seas discuss trivial subjects when the Australia wireless is trying to get into the air important messages.

RHEUMATISM GOES IF HOOD'S IS USED

The genuine old reliable Hood's Sarsaparilla corrects the acid condition of the blood and builds up the whole system. It drives out rheumatism because it cleanses the blood. It has been successfully used for forty years in many thousands of cases the world over.

There is no better remedy for skin and blood diseases, for loss of appetite, rheumatism, stomach and kidney troubles, general debility and all ailments arising from impure, impoverished, devaluated blood.

It is unnecessary to suffer. Start treatment at once. Get a bottle of Hood's Sarsaparilla from your nearest druggist. You will be pleased with the results.—Advertisement.

FUNERAL PLANNED FOR NOTED DOCTOR

Last Rites to Be Said Here for Dr. Charles Norman Ellinwood.

SAN FRANCISCO, Jan. 5.—Funeral arrangements for Dr. Charles Norman Ellinwood, who died last evening at his home, 2739 Pacific avenue, have not been completed by the family, but it is thought that the funeral will take place either tomorrow or Sunday.

A widow, Mrs. Elizabeth S. Ellinwood, and our children survive. They are Mrs. Charlotte E. Greer of Seattle, Charles Norman Ellinwood, Lathrop MoD. Ellinwood and Veranus Ellinwood of this city.

America Circus Think Italians

New York and Indians Furnish Popular Idea

ROME, Jan. 5.—Buffalo Bill's Wild West Circus has "advertised" America throughout Europe. His circus, playing frequently to European spectators, has left a trail of false impressions behind it. The American "movies" shown here only emphasize them.

The case of Madame Montez interviewed today in a Roman boarding house is by no means uncommon. She is a well-known writer and literary woman. "Oh, you are an American," she began. "I am glad to meet you. For I am making a scientific study of America."

"I was recently presented to some people from a state called Indiana. Really they didn't look so much like Indians. Of course, their manners were a little off."

"It must be very difficult for one to live in the States. The constant clash of the American and the Indian civilization is undoubtedly a very nerve-racking annoyance."

"Of course, the poor Indians really did give a civilization to the world. They were a simple and a real people, having a real art and a real literature."

"The Indian at least has blood and not machine oil in his veins. Naturally, there are some savages, the good being always mixed with the bad."

"The Americans are frequently called 'the Germans of the New World.' The New York City is regarded as the beginning and end of the United States. It is allegedly a riot of skyscraping buildings, cocktail loving women, spoiled wives and fresh children."

Paine Estate Will Be Divided Through Will

EUGENE, Ore., Jan. 6.—The will of Dr. Dewitt A. Paine, disposing of an estate estimated by the executor to be worth approximately \$95,000, was filed for probate here. Provision is made for an annual income of \$3000 for the widow and \$5000 for each of the three children. The remainder of the estate is to be held in charge by a local bank during the life of the widow and is to be divided after her death or remarriage to the children. The will was made and signed December 23, 1916, just a few days before Dr. Paine's death.

Police "Diet Squad" to Live on 25c Daily

NEW YORK, Jan. 5.—An experiment intended to prove that a normal man can exist on an expenditure of 25 cents a day for food will be undertaken next week by a "diet squad" of twelve young policemen. It was announced today. They will be examined daily by three members of the hygiene conference board, of which William H. Taft is chairman.

Mexican Assembly Orders Speedy Trials

QUERETARO, Mexico, Jan. 5.—The Constitutional Assembly has adopted an article providing for the speedy trial of persons arrested on criminal charges. The article abolishes the practice of holding prisoners incommunicado, permits the release on bail of prisoners accused of offenses punishable by less than five years' imprisonment and provides for a hearing on all charges imperative within forty-eight hours after arrest.

Garbage Entrance for Baby; Tenant Sues

NEW YORK, Jan. 5.—Dogs can ride in the elevators and use the front door, but his 4-month-old daughter has to be carried through the garbage entrance, 487 West 12th St., living at the Roger Morris apartments, declared in court. He asked an injunction forcing the lessee of the apartments to allow children in the front way.

Subject to Croup. "My little girl is subject to frequent attacks of croup," writes P. O. Strong, Capilla, Cal. "I always give her Chamberlain's Cough Remedy, and one or two doses of it cures her." This is a favorite remedy for croup, as it can be depended upon and is pleasant and safe to take. It contains no narcotic. For sale by Osgood Bros. Drug Stores.—Advertisement.

DOCTORS URGE RACE EFFICIENCY

Birth Control and Better Population Discussed at Meeting.

NEW YORK, Jan. 5.—Divergent theories on the sources of efficiency and inefficiency of the human race was expressed by many of the city's leading surgeons and physicians at a meeting of the Academy of Medicine last night, after a paper on the subject had been read by Dr. Pearce Bailey, neurologist and psychiatrist.

Dr. Jacoby said: "Society would be far better off if many persons were never born. What we want is a smaller population and a better population." Epileptics and criminals should be given more attention to curing their patients than to the study of scientific prevention of disease.

Dr. Meltzer declared, "Treat the sick people and let the well people alone. Patients should look out for the prevention and doctors should look out for the patients."

"Men and women go on in this world with heart disease, Bright's disease, diabetes and other troubles for years," Dr. Meltzer said, "and feel perfectly well until a doctor tells them there is something the matter with them, and afterward, until they die, there is always something the matter with them. It is a wrong policy to have people examined too often."

Suspected Footpad Is Shot in Flight

SEATTLE, Wash., Jan. 5.—An unidentified man, about 25 years old, was shot twice through the stomach by two policemen here immediately after it is alleged he had held up the proprietor of a cigar store on Pike street. The cigar store man had notified the police of the robbery and had given a description of the robber. Two policemen at headquarters were detailed on the case, and as they were walking to the scene of the hold-up, they met a man answering the description of the robber. When he was ordered to halt, the policemen say that he started to run and that he made a motion as if to draw a revolver from his hip pocket. The wounded man is in the city hospital.

Dr. Jacoby said: "Society would be far better off if many persons were never born. What we want is a smaller population and a better population." Epileptics and criminals should be given more attention to curing their patients than to the study of scientific prevention of disease.

Dr. Meltzer declared, "Treat the sick people and let the well people alone. Patients should look out for the prevention and doctors should look out for the patients."

CASCADE OF COLOR FOR AD MASQUE

Confetti and Bright Lights Will Fill Veritable Fairland As Oakland Crowds Make Merry at Great Festival.

Bal-Pageant and Dance Will Eclipse All Similar Affairs—Noted Artists Are at Work on Details of Affair.

A snowstorm of confetti, which will fill the Oakland Auditorium from end to end with a pouring cascade of color from a point high above the heads of the dancers, while myriad lights illuminate the tiny particles of the fluttering downpour, is one of the features planned for a closing sensation for the St. Valentine's Ad-Masque ball, which is to be held on the evening of February 14.

The bal-pageant, which will be the big social event of the year, will supply startling denouements during every hour that it holds forth within the confines of "Joyland," as the Auditorium enclosure will be called. Nothing like it has ever before been planned in the city—nothing like it will be seen again for some time to come. No expense is to be spared to make it outdo the most pictorial events of the exposition year.

Last year at more than 10,000 persons on the floor or in the seats scattered about the big building. The balconies were filled to overflowing and thousands who came for only a few minutes stayed until the lights were put out. Mad revelry held forth without restraint. The spirit of the carnival stalked abroad amid the colored lights and fantastic costumes which marked the first big event of the advertising world in this city, inspiring weird "stunts" and dramatic developments.

WILL ECLIPSE AFFAIR.
This year, under the plans of the committee in charge, the former affair is to be entirely eclipsed. A better artists and designers are at work with ideas and suggestions. Every man, woman and child in Alameda county who has an original suggestion which may be used to make the Ad-Masque ball a success and provide entertainment in a blarney manner, is invited to contribute his or her suggestion to the committee in charge.

The costumes this year, it is expected, will exceed anything ever seen in the city. For weeks before the ball is held the costumes of many persons, who have supplied special effects for the affair, will be placed on display at various downtown points. Experts will be in attendance who will offer suggestions to persons who desire to present original or unusual costumes on the night of the big event.

Preliminary to the main work of the committee will be the contest for the selection of a queen of the carnival, which is to be one of the central attractions of the Ad-Masque ball. This queen is to be selected from among the fairest of Alameda county girls, by a committee of business men. She will be the subject of song and story and slogan. Around her will be written a pageant. With her will go a court and attendants of her unsuccessful rivals. At the ball she will lead the grand march. Her's the coveted honor of the evening, to be written for.

DESIGNING POSTER.
Artists in various parts of the county are at work already on a design for an official poster. There will be a prize contest for this also. The poster must conform to certain requirements, which will be given out by the committee in charge, on re-

Death Penalties To Be Avoided

To Be Imposed Only in Exceptional Cases

LOS ANGELES, Jan. 5.—The death penalty will be imposed only in exceptional cases if a proposal made by Superior Judge Wilbur is made a law. Wilbur would have a further hearing regarding mitigating circumstances, following a verdict of first degree murder and would make it possible for juries to recommend life imprisonment by majority vote.

MOTORIST SOUGHT BY AUTHORITIES

Injured Man Found on Road; Run Down by Auto; Is Badly Hurt.

NILES, Jan. 5.—The authorities are today searching for a motorist who drove on without rendering assistance after severely injuring Joseph Novis, an Alameda rancher, in a collision between an automobile and a horse and buggy at Warm Springs last night.

Novis was found by Dr. W. C. Lynch of Niles lying on the state highway, suffering from broken arms and other injuries. He was rushed to the county infirmary. The injured rancher, who can speak English with difficulty, says he was driving along the state highway shortly before 11 o'clock last night when an automobile, which could hear approaching at high speed, threw out and the buggy was badly smashed. Without stopping to give aid the motorist continued on. Novis lay on the road nearly an hour before assistance came. One of his arms has compound and the other a multiple fracture.

Aerial Jail Sanitary; Also View Is Great

PALO ALTO, Jan. 5.—Palo Alto is to build its jail in the bell tower of the city hall. This was decided at a meeting of the board of directors of the city of Palo Alto, which was held last night. The board believes that the jail should be kept in the air for sanitary reasons.

quest. Devils, yama-yama girls, masked beauties—all these will form subjects for the central figures of the poster. No old ideas worked over will be accepted, nor copied creations. Everything must be new, startling, spectacular as well as artistic.

The Ad-Masque ball will represent the development and progress of advertising in the semi-allegory of spectacular display. All of the developments of the past years will be portrayed in some form or another. Modern advertising will be represented in costumes worn by the dancers. Last year many unique effects were shown. This year, with the experience of last year to go by, it is said that some astonishing illustrations of modern-day advertising will be presented.

Final plans for the presentation of the Ad-Masque will be laid at a rally in the Commercial Club rooms to-night. Advertising men and women from all over the bay district will be present, together with business men, artists and others who might have suggestions in regard to the features which are to make the affair a pageant of fun, frolic and revelry in addition to various members of the San Francisco Ad. Club who will be present will be Carl Brockhagen, Rollin Ayres, Clyde White, James Houlihan and Miss Mary B. Dunnis.

DEATH'S END OF 'NEW' ROMANCE

Girl of Dance Halls Could Not Live Another Life; Tragedy Follows.

TRIBUNE BUREAU
SAN FRANCISCO, Jan. 5.—Rosa Alvarez, favorite of the dance halls, will be no more a part of the night life of the city. Neither will she be a domesticated citizen. At 22, her body is waiting burial, and Emilio Dominguez, machinist, waiting his turn for the gallows.

Three months ago the young machinist, just 21, fell in love with the girl of the dance halls. He knew of her dissipated life, but he thought she loved him and him alone. He thought she would make such a wife as conventional women make who had never lived as she had lived. The girl thought so, too, and agreed to marry him.

But when he took his sweetheart away from the tragic glitter of the halls, to live with him as his wife, Emilio Dominguez neglected the marriage ceremony. At first it was a postponed event, later it was often postponed. Old associates from her former life of gaiety appeared and interest in the new wife waned. When at last yesterday the machinist entreated her to marry him, she refused.

Whether it was domesticity without marriage, or domesticity in any phase that palled on her, he did not know. To the girl, however, it was a matter of indifference. She had found in the pulled out of the room at 618 Broadway where they had started their new life together three months ago.

VITAL STATISTICS

Notable Deaths

MINNEAPOLIS, Minn., Jan. 5.—William A. McAlmon, former University of Minnesota football star and for the last two years coach of the Grinnell (Iowa) College football team, died here late last night after a brief illness. Death was due to diabetes. Since his graduation in 1914, McAlmon has practiced law here except for the time spent in coaching. He was 27 years old. His mother, of Los Angeles, and four sisters and three brothers, survive.

CHICAGO EDITOR DIES.
SEATTLE, Jan. 5.—David Paul, editor of the National Builder of Chicago, is dead in that city. He was a native of Australia, and 43 years old. He had been marine reporter on several Seattle and San Francisco newspapers, and later on a Seattle paper. He was for two years editor of a Seattle building magazine, and went to Chicago last month.

DIES ON BIRTHDAY.
NEW YORK, Jan. 5.—Mrs. Helen Kendrick Johnson, editor and writer, died at her home here on her seventy-third birthday. Mrs. Johnson wrote several books and many essays and pamphlets on suffrage which were used as campaign material by the Association Opposed to the Extension of Suffrage to Women, of which she was a member. She was born in Hamilton, N. Y.

VETERAN GENERAL DIES.
BERLIN, Jan. 5.—Peter Osterhaus, last surviving major general of the United States' forces in the Civil War, died at his home of his daughter-in-law at Duisburg. Interment took place today at Coblenz. General Osterhaus is the father of Rear Admiral Osterhaus of the United States Navy.

FAMOUS SCIENTISTS PASSES.
PARIS, Jan. 5.—Prof. Jean Baptiste Chavenna, the eminent biologist, member of the Institute and of the Academy of Medicine, is dead here.

DEATHS
ENGLISH—In this city, January 8, 1917, at 2230 Myrtle street, Ella H., beloved wife of John T. English and loving mother of John J. English, Mrs. James Parker, Mrs. W. T. Bradshaw, Mrs. J. R. Ferguson, Mrs. F. C. Dober and Mary English, a native of Massachusetts, aged 65.

Friends and acquaintances are respectfully invited to attend the funeral Saturday, Jan. 6, at 10 o'clock, at 1111 Oak street, from the parlors of Dr. J. James Finney (new location), 2005 Telegraph avenue, corner 27th street. Interment, View cemetery.

GERBER—In this city, January 8, John Gerber, beloved husband of Elizabeth Gerber, a native of Switzerland, aged 53 years, 6 months and 4 days. A member of Oakland Tent, No. 17, K. of G. T. M.

Friends are respectfully invited to attend the funeral Saturday, January 6, 1917, at 2 o'clock, from the home of Mrs. E. C. Gerber, 1717 17th street and 23rd avenue. Remains at the funeral parlors of Grant D. Miller, 2572 Broadway, 14th street, Oakland. Interment private.

KEenan—In this city, January 4, Joseph William, beloved husband of Anna Levia Keenan and loving father of Walter S. Keenan, V. and Josephina W. Keenan, a native of England, aged 78 years, 7 months and 23 days. Friends are respectfully invited to attend the funeral services tomorrow (Saturday), at 1:30 o'clock, p. m., at the chapel of Albert Brown, Company, 838 Broadway, Oakland. Services under the auspices of Lyon Post, No. 32, G. A. R., interment private.

MORLEY—In this city, January 2, 1917, Eva Morley, beloved wife of Len R. Morley and mother of Len R. Morley, Jr., and daughter of Mrs. Mary Furena, and sister of Benjamin, Joseph, May and Hazel Furena, a native of Scotland, Cal., aged 27 years, 7 months and 7 days.

Friends are respectfully invited to attend the funeral services Saturday, January 6, 1917, at 10 o'clock, from the home of Mrs. E. C. Gerber, 1717 17th street and 23rd avenue. Remains at the funeral parlors of Grant D. Miller, 2572 Broadway, 14th street, Oakland. Interment private.

MORLEY—In this city, January 2, 1917, Eva Morley, beloved wife of Len R. Morley and mother of Len R. Morley, Jr., and daughter of Mrs. Mary Furena, and sister of Benjamin, Joseph, May and Hazel Furena, a native of Scotland, Cal., aged 27 years, 7 months and 7 days.

Friends are respectfully invited to attend the funeral services Saturday, January 6, 1917, at 10 o'clock, from the home of Mrs. E. C. Gerber, 1717 17th street and 23rd avenue. Remains at the funeral parlors of Grant D. Miller, 2572 Broadway, 14th street, Oakland. Interment private.

MORLEY—In this city, January 2, 1917, Eva Morley, beloved wife of Len R. Morley and mother of Len R. Morley, Jr., and daughter of Mrs. Mary Furena, and sister of Benjamin, Joseph, May and Hazel Furena, a native of Scotland, Cal., aged 27 years, 7 months and 7 days.

Friends are respectfully invited to attend the funeral services Saturday, January 6, 1917, at 10 o'clock, from the home of Mrs. E. C. Gerber, 1717 17th street and 23rd avenue. Remains at the funeral parlors of Grant D. Miller, 2572 Broadway, 14th street, Oakland. Interment private.

Accused Lunatic to Seek Trial by Jury

Following his commitment to the Stockton asylum for the insane last week by Superior Judge Stanley Smith, Arthur George, who claims he is a relative of David Lloyd-George of Great Britain, has demanded a jury trial for the purpose of having his sanity determined. George was arrested at the instance of Judge R. B. Tappan of Alameda, to whom he had written threatening letters.

At the hearing at the receiving hospital George offered no contest. A person so committed has five days after commitment to demand a trial by jury.

Alameda Youth Held on Girl's Accusation

Walter Jorgensen, a 190-year-old Alameda youth, was today held to answer to the Superior Court by Police Judge Samuels on a charge of attacking Elsie Gabriels, a 17-year-old girl of 2333 Seventy-third avenue, on December 19, at Leona Heights. His bail was fixed at \$500.

Testimony of the girl and of Frank Ambrose, a 9-year-old boy, who had accompanied her into the hills, was heard.

Jackson Funeral Is Held at Chapel

The funeral of Mrs. Caroline Louise Jackson was held this afternoon. Following a service in the Barber chapel, 3347 East Fourteenth street, interment took place at Mountain View cemetery. For sixty-five years Mrs. Jackson had lived in Oakland. She crossed the plains with her parents at the age of 8 years.

The widow of Haseley D. Jackson, himself a prominent citizen of Oakland's early days, she is survived by six children, two grandchildren and one great-grandchild. The children are Mrs. Della Burgess, Mrs. Carrie Leavitt, Mrs. Marie Stroud, Mrs. Anna Brown, Mrs. Ivy Williams and Fred Orth. The grandchildren are Harold Orth and Marvin Stroud, while the great-grandchild is Marjorie Stroud.

Mrs. Jackson passed away at her home, 1435 Thirty-fifth avenue, after a brief siege of pneumonia.

Four Men Captured As Wrecking Suspects

LOS ANGELES, Jan. 5.—Two men were taken into custody today by a sheriff's posse found that two masked men had pulled a Japanese settlement near there, beaten six gardeners into submission and, with the aid of two others who appeared, carried off crows and tools with which the rail was loosened from a spur and later put across the main track.

Poor Students Leave Stanford

"Cinched" Ones Many, Reports Show

PALO ALTO, Jan. 5.—Seventy-three students have been expelled from Stanford University for poor scholarship, according to announcements made this morning by the Registrar. This is a larger number than ever before in the history of the institution and a high percentage. Last year only fifty-three were expelled, while the enrollment that semester was 30 more than this year. In addition to those expelled, 127 students were disciplined for poor scholarship and will have one more opportunity to raise their standing.

enable the train to pass safely. The train crew telegraphed a report and a sheriff's posse found that two masked men had pulled a Japanese settlement near there, beaten six gardeners into submission and, with the aid of two others who appeared, carried off crows and tools with which the rail was loosened from a spur and later put across the main track.

Big Sales Shown in Packing Firm Report

CHICAGO, Jan. 5.—Gross sales amounting to \$755,000 and net profits \$20,405,000 were shown in the report of Swift and Co., packers, for the year ending September 30, 1916, submitted to the stockholders of the company at their annual meeting today. The gross sales for 1916 were \$500,000,000 and the net profits \$14,000,000.

President Louis F. Swift said that the actual profits on all operations including exports amounted to one half cent a pound of output. He also said that the profits on foreign business were greater than on domestic, representing the largest item in the financial result.

Were They Riding on the Hog? Question

DALLAS, Tex., Jan. 5.—Members of Battery A, Texas National Guard, are telling how, when their motor truck recently ran out of cylinder oil while they were carrying supplies from a ranch to Fort Ringgold, they tried out a man they had aboard, oiled the engine with fat and slid in the rest of the way on high.

Sound Kidneys
Save Suffering

The hustle and bustle of modern life cause weak kidneys, because overwork and worry invariably create poison faster than the kidneys can possibly filter it from the blood. Pain in the back, nervousness, and lack of ambition are the first warnings that the kidneys are inflamed and congested, and for these conditions Warner's Safe Kidney and Liver Remedy should be used for remedial action. For 40 years this dependable medicine has proved itself nature's provision for mankind against kidney disease and its oftentimes terrible effects. Here's an instance of its remarkable efficacy:

"Having been afflicted with kidney and liver complaint for over 20 years, I was induced to try Warner's Safe Kidney and Liver Remedy, and after using it for a time am now well and strong. I can unqualifiedly state that this medicine without any doubt saved my life and I can conscientiously recommend it to others similarly afflicted."—Clarence H. White, Battle Creek, Mich., U. S. A.

Warner's Safe Kidney and Liver Remedy contains no harmful ingredients and should be used when the kidneys need attention. At all druggists in 50c and \$1.00 bottles. Free sample if you write Warner's Safe Remedies Co., Dept. 363, Rochester, N. Y.—Advertisement.

PENINSULA ALSO FIGHTS ANNEXATION

State Legislature Will See the Main Battle; Both Sides of Bay Will Oppose San Francisco's Absorption Scheme

Other Parts of California Are Enlisted; Law Makers to Be Bound to Defeat Consolidation and Terminal Plan

Replies which are being received by the Oakland Chamber of Commerce from legislators to whom letters were sent requesting their aid in the coming session of the legislature in Oakland's response of the San Francisco annexation project indicate that the Alameda county delegation of assemblymen and senators will be backed by a sufficient number of supporters to make it impossible for the proposed enabling act in the shape of a constitutional amendment to pass. Assurances of assistance are coming in from chambers of commerce and other civic bodies of the interior cities of the state.

There are intimations as well that the San Mateo county representatives in the legislature will join with those of Alameda county in the battle against consolidation. At least a proposed extension of San Francisco southward along the peninsula is being met with opposition, and there is a possibility that the San Mateo county delegation may be instructed to vote against it in Sacramento.

A mass meeting has been called for Saturday afternoon in Burlingame to voice the opposition to the merger. Hillsborough has raised \$2000 to carry on a fight for independence. At the conference to be held tomorrow there will be representatives from Burlingame, Redwood City, San Mateo, Halfmoon Bay, Menlo Park and Daly City. The Chambers of Commerce of Berkeley, Alameda and other cities are joining with the Oakland Chamber of Commerce in the organized campaign of resistance. The fight is being carried on in two main divisions: the defeat in Sacramento of any annexation legislation and the overthrow of the plan of the city of San Francisco to attack the commercial position of Oakland by placing the railroad terminals on Yerba Buena Island.

NO OIL OFFER, DECLARES MAGNATE

Report of Big Deal Not Confirmed; No Further Discussion.

LOS ANGELES, Jan. 5.—L. P. St. Clair, president of the Independent Oil Producers' Agency, denied today that the Union Oil Company had offered Agency members 73 cents a barrel for their total output, as reported from Bakersfield last night.

He stated that no such proposition had been made either by the Union Oil Company or the Agency.

He declined to discuss the possibility of such an arrangement being made. Under the present agreement with the Union Oil Company, which runs until January, 1920, the members of the Independent Oil Producers' Agency, it was learned, are receiving about fifty cents a barrel for their output of about 750,000 barrels a month.

Much of the nine or ten million barrels which the Agency has been accumulating for three years has been taken over by the Union Oil Company, it was learned. Some of these was said to have been bought at about thirty-three cents a barrel.

Max Thelen Again Heads R.R. Commission

Max Thelen was yesterday re-elected president of the Railroad Commission. This is his third term as president. He is also president of the National Association of Railway Commissioners, composed of all members of the public utility commissions of the United States, Canada and Hawaii.

Ballet Russe Will Mark New Era in Oakland

LYDIA LOPOKOVA.

The coming of the Diaghileff Ballet Russe, with its world-famous stars and with the symphony orchestra of sixty musicians, represents perhaps the greatest production of the kind ever to visit Oakland. The company will be here two evenings, Tuesday and Wednesday next, at the Municipal Auditorium. The Oriental ballets "Scheherazade" and "Cleopatra" and other gems of an extensive repertoire will be put on. Nijinski, the greatest male dancer, is to appear at the both of the Oakland performances, in which will also be seen Adolf Bohn, Lydia Lopokova, Flora Ravalles, Gavrilov, Zverev, Sokolova, Frohman, Specsewa and others whose names are familiar to those who have followed the art of dancing and the rise of the Russian school, members of which have taken this country by storm. The company that is coming here is, in number of artists, scenic investiture and costuming, the greatest ever formed. Its costumes have been designed by Leon Bakst.

In the visit of the Diaghileff company Oakland is given the chance to see the Russian dance in its greatest opportunity for expression, just as it was seen in New York and in its famous tour from that city to the Pacific coast.

'CONFESSION' COMPLICATES BOPP TRIAL

"Will Surrender," Writes Man Who Says He, Not Crowley, Blew Up Munitions on Way to Russian Armies at War Promises to Be in Court and Speak; District Attorney and Defendant Both Get Notes From "Culprit."

SAN FRANCISCO, Jan. 5.—Two letters, signed only with initials, received simultaneously this morning by Consul-General Franz Bopp, on trial for setting on foot a military expedition against Canada, and U. S. Attorney John W. Preston, who is prosecuting him, proclaim the innocence of Charles C. Crowley. The writer offers to surrender himself in Federal Judge William Hunt's court before the conclusion of the trial, declaring that it was he who blew up the barge of explosives at Seattle on May 30, 1915. The destruction of this consignment, intended for Russia, has played a most important part in the evidence produced in the case. It was for the destruction of these munitions that Louis J. Smith confessed he was sent by Crowley to the north.

While Attorney Preston scoffs at the readiness of the offer, declaring "there are a lot of fellows who would like to surrender for that job," Attorney Theodore Roche declared that he believed the author of the missive was the culprit.

BOPP GETS NOTE.

The letter received by Consul-General Bopp was as follows:

To the Imperial Consul-General Mr. Bopp—San Francisco:

Dear Sir—I hereby inform you of my sending a letter to Mr. Preston, U. S. Attorney, about an explosion of a barge at Seattle, as I am positively sure that Crowley is innocent. You will see me surrender before the trial is over. Respectfully, H. P. Preston received the following:

U. S. Attorney, Mr. Preston:

Dear Sir—I arrived today in San Francisco and have seen in the daily papers all about the trial of Charles C. Bopp and his confederates. I only let you know that Crowley is innocent about the explosion of a barge in Seattle. I have been doing this myself.

About any other charges you may have against him, I don't know anything as I don't know anybody of the German consuls.

I am not sorry that I did this, though when I went on the barge nobody was on board. I will be in attendance Monday or Tuesday at the trial and perhaps surrender.

Respectfully, H. P.

N. B.—I informed German Consulate also.

LETTERS ILLITERATE.

The letters are both dated today, January 5. There are a number of misspelled words and several unintelligible ones, but the sense is as above deciphered.

By way of rebuttal testimony, United States Attorney Preston today called to the stand J. A. Byrne, a civil engineer of Winnipeg, who testified that he made a description of railroad terminals and bridges in Canada for Crowley December 4, 1914. The work was done at the Hotel Sutter in San Francisco.

Children to Star in Children's Scenarios

LANKERSHIM, Jan. 5.—A film studio to produce motion pictures acted by children for juvenile audience is to be built here soon, citizens donating the site.

Birth Control Speech Is Delayed by Stork

BRIDGEPORT, Conn., Jan. 5.—The audience gathered to hear his speech advocating birth control had to wait an hour for Dr. Simon Katzoff, while he was "welcoming another citizen into the world."

Aged Oakland Pioneer Dies at Home Here

DANIEL STUART.
—Webster photo.

Daniel Stuart Held Place in the Community Sixty Years.

Passing quietly away in the gradual failing of his powers through age, Daniel Stuart, a well-known pioneer of Oakland, died yesterday morning in his home at 2707 Twelfth avenue. The end was not unexpected, as there had been several warnings of waning strength. Death came peacefully, with members of the family by his bedside.

Daniel Stuart was born in Ballantyne, County Antrim, Ireland, in 1831. His parents left Ireland in 1833. He came to Oakland in 1857 and remained here for the remainder of his life.

Upon his arrival in Oakland Stuart engaged in the shoe business, conducting two stores in separate districts of the city. After a successful career as a merchant he became interested in the salt water baths of West Oakland, which he managed until his retirement from active life in 1906.

Stuart was 83 years old at the time of his death. He was the beloved husband of Victoria Barlow Stuart, nee Henry, who died in 1913. His parents left Ireland in 1833. He came to Oakland in 1857 and remained here for the remainder of his life.

Funeral services will be privately conducted Saturday morning from the Albert Brown undertaking parlors in Thirteenth street. The body will be cremated.

County Officers to Be in Office Monday

SACRAMENTO, Jan. 5.—County officers throughout the state elected in November will take office Monday, January 8, just a week after the usual time. The law says county officers shall take office on the first Monday after January 1.

Pioneer and Veteran Is Laid to Rest

MENLO PARK, Jan. 5.—Major Charles Harkins, 81, who died here Tuesday, was buried this morning. Major Harkins, a native of Ireland, fought under General Sheridan in the Civil War and in the Indian wars. He was a pioneer resident of this section. A widow and seven children survive him.

RELIEF SOCIETY OFFICERS NAMED

Annual Meeting Hears Reports for Year and Holds Election.

The annual meeting of the Ladies' Relief Society was held yesterday afternoon. The following officers were elected for the coming year: President, Miss Matilda E. Brown; first vice-president, Mrs. Louis Chirardelli; second vice-president, Mrs. John Bell Mhoon; third vice-president, Mrs. Victor H. Metcalf; treasurer, Mrs. George Rothanger; recording secretary, Mrs. Frank F. Weston; corresponding secretary, Miss Helen Campbell; financial secretary, Miss Louise de Fremery.

Advisory board, Victor H. Metcalf, C. O. Miller, William G. Henshaw, Willard F. Williamson, Charles Butters. Legal advisor, Donald Y. Campbell. Medical staff, Dr. A. H. Pratt, Dr. A. M. Meade, Dr. Hayward G. Thomas, Dr. James Haven Pond, Dr. E. A. Majors, Dr. H. S. Kergan, Dr. Mary Powell.

Board of directors, Miss Matilda E. Brown, Miss Harriet Bakewell, Mrs. Spencer Browne, Miss Helen Campbell, Miss Mona Orellin, Miss Louise de Fremery, Mrs. J. Y. Eccleston, Miss Elizabeth Gill, Mrs. Louis Chirardelli, Mrs. Wickham Havens, Mrs. William G. Henshaw, Mrs. D. H. Mathes, Mrs. H. S. Kergan, Mrs. Victor H. Metcalf, Mrs. John Bell Mhoon, Mrs. Harry East Miller, Mrs. Frank F. Weston, Mrs. Frank K. Mott, Mrs. George Rothanger, Mrs. Willard F. Williamson.

Board of managers, Mrs. Granville Abbott, Miss Winifred Braden, Mrs. Edw. L. Braxton, Mrs. Charles Butters, Mrs. J. G. Berryhill, Mrs. Alta Chickering, Miss Alice Grimes, Mrs. Nelson Howard, Miss Helen Kinsell, Mrs. Joseph R. Knowland, Mrs. A. S. Macdonald, Mrs. Walton N. Moore, Mrs. Frank H. Proctor, Mrs. Walter Reid, Miss Elsa Schilling, Miss Beatrice Simpson, Mrs. Hayward G. Thomas, Mrs. George H. Tyson, Mrs. William Thornton White.

Richmond Loses Count, But Gains Citizens

SAN FRANCISCO, Jan. 5.—Count Henry Helmuth von Adelmann of Stuttgart, Germany, renounced his title and became plain Henry Helmuth von Adelmann of Richmond, Contra Costa county, when he was naturalized in Federal court yesterday. He will give up his title in order to become an American citizen.

The applicant for naturalization papers, Von Adelmann is foreman in the Santa Fe railroad yards at Richmond.

SUNDAY CLOSING WILL BE URGED

New President of San Jose Civic League Outlines Year's Plans.

SAN JOSE, Jan. 5.—That the newly-elected president of the Civic League of this city, Mrs. W. D. Irish, who succeeds Mrs. Nellie Thompson, for years its president, is going to wage an active campaign in behalf of Sunday closing, supported by her league members, was evidenced yesterday. She said:

One of the things we will probably ask right after this year is the Sunday closing of saloons. We have been considering the matter for some time, and at the coming session of the executive board we will take it up further. The league will also continue its agitation for the cleaning of the county jail, for the continued carrying on of the work of the probation office and the juvenile court.

The full set of newly-elected officers of the league are: President, Mrs. W. D. Irish; vice-president, Mrs. E. E. Stahl; second vice-president, Mrs. J. E. Markle; third vice-president, Miss Clara H. Smith; recording secretary, Mrs. E. C. Hurff; corresponding secretary, Mrs. T. A. Sloan; treasurer, Mrs. A. F. Hermann; nominating committee, Mrs. M. V. Hubbard, Mrs. Lucy Washburn, Mrs. E. C. Hurff and Mrs. C. H. Henry.

Holiday Pageant Is Planned by Church

A Twelfth Night Mystery, the annual pageant of the holiday season, will be given this evening in St. John's Episcopal church, Eighth and Grove streets. The coronation of the Three Kings, impersonated by Harry Giles, Russell Parkinson and Frank de Acosta, will be followed by a procession of shepherds, heralds and flower girls around the interior of the church and the deposit of gifts at the manger near the altar.

Following the pageant, an entertainment will be given in the Parish Hall, consisting of moving pictures, tricks of magic and a magician and fancy dancing. Refreshments will be served.

Judge's Bar Had Fine Old Liquor

LOS ANGELES, Jan. 5.—The term "bar" had two meanings—both correct—in Superior Judge Shenk's court. In a suit over the quality of wine sold a cafe owner, many bottles were introduced for the judge to sample and base his opinion upon.

"Purse Is Mine," Woman Explains

Rightful Owner Puts in Claim Too Late

SAN FRANCISCO, Jan. 5.—Mrs. Paul Boyer of 4 Nottingham avenue, Berkeley, was robbed of her black seal purse containing \$20 by a clever woman, who took advantage of an unusual opportunity on a Market street car this morning.

Lilburn E. Westrich, a financial secretary of 144 Grand avenue, Oakland, endeavored to restore Mrs. Boyer's pocketbook to its rightful owner and thereby gave the clever female thief her opportunity. Mrs. Boyer left her purse on the inside section of the car when she decided to change seats. It was picked up by Westrich just as he was leaving the car to go to his office in the Balboa building. He was handing it to the conductor when a smartly dressed woman with Gray hair came forward, claimed it as her own and alighted. Two minutes later Mrs. Boyer discovered her loss and the police were notified.

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home. Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses. It is believed that thousands who wear glasses can now do so in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Note: Another prominent physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. The manufacturers guarantee it to strengthen eyesight. It can be used in one week's time in many instances or refund the money. It can be obtained from any drug store and is one of the very few preparations I feel should be kept on hand for regular use in almost every family."—Advertisement.

SHAKE-UP MADE IN STREET FORCE

San Jose Department Reorganized; New Offices Are Filled.

SAN JOSE, Jan. 5.—The department of public works underwent a rigid shake-up and reorganization yesterday, in compliance with the order of City Manager Thomas H. Reed. Both the engineering and the street department division were caught in the maelstrom and subjected to wholesale changes.

Valter H. Hunt remains as head of the department of public works at a salary of \$275 a month. He is provided with three assistants at a salary of \$100 a month each. The personnel of the department as now reorganized is: Chief engineer, Nikirk; second assistant, Thomas Rogers; third assistant, Floyd C. Brown; clerk, Frank Dyer; first assistant, Frank J. Harold F. Schenacher, foreman of streets and sewers, S. J. Hanks sub-foreman, W. J. Pascoe inspector, Walter Keenlyve. The new order abolishes all street foremen, this work to be done by the men without direct supervision. An order was also issued making Miss Elsie M. Lane chief clerk in the office of city manager.

Switzerland Safe; Is Reiterated by Germany

BERNE, Switzerland, Jan. 5.—The Bund prints a note from the German legation with the object of dispelling fears aroused in Switzerland by rumors that Germans intended to strike at France and Italy through this country. The note says: "We may once more declare that as all Swiss know, Germany is formally resolved to strictly respect Switzerland's neutrality."

BEST RESULTS FROM GOOD KIDNEY PREPARATION

Within the past four years I have had two severe attacks of bladder trouble, causing me more or less bother from my work, and at night. My trouble was brought on by drinking bad water. On each attack I used from two to three bottles of Dr. Kilmer's Swamp-Root, and was entirely cured. I have recommended Swamp-Root to several of my friends who have been benefited by it. I am well-known in E. Oakland, having lived here for 43 years.

Very truly yours, JACKSON ALONZO SWEET, 1820 East 12th Street, Oct. 25, 1915. Bayers Oakland, Calif. Personally appeared before me this 25th day of October, 1915, Jackson Alonzo Sweet, who subscribed the above statement and made oath that the same is true in substance and in fact.

B. S. McARTHUR, Notary Public.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

Prove What Swamp-Root Will Do For You.

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention The Oakland Daily Tribune. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Advertisement.

Stock Adjusting Campaign

BROKEN LINES SURPLUS STOCKS REMNANTS, ETC.

Saturday, the fifth day of this Great Sale, will be most important. Many new features will be brought out—some of them for the one day only. Ready-to-wear merchandise will be featured at prices you are sure to appreciate. A part of the story is told here.

PETTICOATS, 49¢—Finished with embroidery flouncings and extra underlay.

ENVELOPE CHEMISE, 49¢—Embroidery or lace trimmed. Sizes 34 to 44.

Undermuslins 26¢

Dainty corset covers, trimmed with embroidery, lace and wash ribbon.

Muslin drawers that have embroidery and tucked flouncings.

Saturday is Children's Day

We will feature many specials in children's garments. A few of them are mentioned below.

Ivory Toilet Articles Reduced One-Third

We make this interesting proposition on every piece of ivory in stock. We have a good assortment. We make the same reduction offer on LEATHER NOVELTIES of all kinds.

Women's Coats Will Be Featured Saturday

If you are interested in coats, be sure to come Saturday. You've never been offered better values—you will agree when you see them.

Fine Plush Coats \$12.75

The Star Bargain of the Stock Adjusting Campaign. Fine black plush coats in popular semi-belted models. The plush is a fine quality—this means service. If ordered today they could not be manufactured at this price, to say nothing of transportation charges and profits.

Mixture Coats \$5.00, \$9.75 and \$12.75

Three final clearance prices which are causing our stock of coats to disappear at a rapid rate. No wonder—the values are amazing. Of course, the size assortments are broken in many lines, but this has nothing to do with the value conditions. Come Saturday to save disappointment.

WE GIVE 24¢ TRADING STAMPS ON EVERYTHING WE BOTH LOSE MONEY WHEN YOU DON'T BUY OF US. SHOP AT OAKLAND'S HANDSOMEST AND CLEANEST STORE.

Oakland Architect Is Honored by N. E. A.

Word of the appointment of City Architect John J. Donovan to serve as a member of the committee on the standardization of the planning and construction of school buildings, by the Department of School Administration of the National Education Association, has just been received. Donovan will serve with William B. Ittner, city architect of St. Louis, C. B. J. Snyder, city architect of New York.

Donovan will aid the other members of the committee in the collection of data on the schools of the coast and will assist in the tabulation of statistics on school planning work. He is the designer of the Oakland Technical High school and many of the largest grammar schools of the city. He was also supervising architect on the Oakland Auditorium and the city hall.

Heir to Wealth Found in Camp Working As Fisherman; Believed Lost

LOS ANGELES, Jan. 5.—After dropping completely out of sight for eighteen months, 15-year-old Carl Carville, who is one of the heirs to a \$7,000,000 estate, is today again with his mother, at Reward. The lad was found working in an Italian fishing colony on Santa Cruz Island.

The youth disappeared two days after it was announced he was one of the heirs to the estate of Mrs. Arcadia de Baker. The frantic mother believed him kidnapped. He was located through some unknown person offering to reveal the lad's whereabouts if the mother paid for the information.

TWO NEW SCHOOLS WILL BE OPENED

San Leandro System Is Augmented by More Large Structures.

SAN LEANDRO, Jan. 5.—Two new ward schools, each with accommodation for 100 pupils will open for the first time Monday. An informal reception will be held in the new ward school in Broadmoor, known as the Washington school, Friday, January 12. The Broadmoor Mothers' club is co-operating with the grammar school board in arranging a program of speaking and music for this occasion. The other ward school, situated at East Fourteenth street and Eastbrook avenue, has been called the McKinley school. The central grammar school is now known as the Lincoln school.

While the class rooms of the new schools will be ready for occupancy Monday, the school auditoriums have not yet been furnished and will not be opened until next Friday.

The school board has mapped out districts from which pupils will attend the different schools. The ward schools will accommodate pupils up to and including the fourth grade and will relieve the present congestion at the grammar school.

The Bride of a Moment

IX.

The Turning Point.

"How do you mean, 'settled'?" and Ferrall picked up his ears.

"Why, I was walking through the Fells Park, and up near the north end; when I saw you, I knew I was looking at the bride of a moment."

Ferrall, waiting round as if expecting somebody. He didn't see me, and as he seemed both disturbed and impatient, I paused a moment, out of sheer curiosity, to see if he was looking at me.

She glanced around in a frightened way, and then when she saw him she ran to him with a little cry, and they took the path through the wood. It was none of my business, of course, but as the lady was to be married at noon, and as I was to be one of the ushers at the wedding, I felt a sort of right to notice it, at least. And I'm telling you this only because Mr. Farrish might have learned in that interview some fact that might have a bearing on the mystery of the murder of the woman.

"At what hour was this?"

"I don't know exactly, but it couldn't have been much later than nine or so, for after that I had ample time to dress and go to the wedding, and, of course, it took a much longer time for the bride to get arrayed."

"Are you sure it was Miss Moulton?"

"Perfectly sure," said Somers, breaking in on the conversation. "I'll ask Mr. Farrish. It might, as you suggest, lead to some information. But tell me, you were an usher, you say?"

"Yes, Mr. Somers."

"Did you see or hear anything, anything at all, that could give you the slightest clue to the perpetrator of the crime?"

"No, sir, not a thing. Why, it's the greatest mystery in the world. A shot, from nowhere, invisible, inaudible. No suspect, no motive! I never knew anything like it!"

"You have no suspicions, then, of the criminal?"

"Indeed I haven't! Or I'd soon show him up! I've heard hints of suspicion directed toward the bridegroom, but that's too dreadful to think of."

"It isn't too dreadful to think of, if it isn't too dreadful to happen, Mr. Benson."

"Come now, what do you mean? That it did happen? But how could a man shoot his bride and no one know it?"

"Never mind that for the moment. Granting it were possible, do you know of anything that would make you believe it were probable?"

"Nothing but that speech Stan Bingham made at his bachelor's dinner, and Benson frowned a little."

"Speech? What was it?"

"Oh, we had rather a gay time; you know, bridegrooms' bachelor dinners are not apt to be tame affairs, and we drank toasts to everybody concerned. The bride down to the chauffeur who would take them away. And at last Worry Swift said 'To the Bridegroom,' and then added, looking at Stan, 'I wish you were my shoes,' and Bingham said, 'I wish to Heaven you did! It wasn't only a horrible thing to say, but the earnest way he said it would make your blood run cold. The whole party shut right up; there was an awful silence, and then somebody began to sing, and the incident passed over. I've never spoken of it to any of the men. Somehow I couldn't."

"And it would seem, then, that Bingham married his bride unwillingly?"

"Well, you must admit, Mr. Somers, it looks that way. Why else would he say that? It wasn't a joke. Bingham has too good taste to make a joke like that; and beside, he said it as if out of the fullness of his heart."

"He wasn't affected by wine?"

"No, sir; Bingham is an abstemious chap. He may have been a little excited, and so, I suppose, but that man meant what he said! It was too desperately in earnest not to be true."

(To be continued tomorrow.)

Ad Club to Seek Coast Convention

The San Francisco Advertising Club, at a directors' meeting held yesterday in the club's quarters in the Palace hotel, laid the first plans for the securing of the International convention of the Associated Advertising Clubs of the World to meet in San Francisco in 1918.

Samuel P. Johnston was elected chairman of the convention committee, which will have the work of winning the meeting to San Francisco. J. A. Houlihan was elected chairman of the "On to St. Louis" committee. The latter body will direct the automobile tour which is to take the delegates to St. Louis.

Representatives from the Convention League pledged their active support in the work, which is to start immediately.

True Love Is Hard, That Is, if It's Sane

LOS ANGELES, Jan. 5.—Gertrude Cox, who recently sent herself a box of poisoned candy to gain the love of a youth, finds the old saw about "the course of true love" is correct. Following a ruling that she is not insane, she is being held for misdeeds of the mails.

OKLAHOMAN TO LECTURE.

H. H. Stallard of Oklahoma will lecture at Hamilton auditorium, Thirteenth and Jefferson streets, Sunday evening, at 8 o'clock. His subject will be "How Would Nehemiah Right the Wrongs of Our Present Industrial System?" Admission will be free. Stallard has taken an active part in the industrial and political life of Oklahoma for years.

KAHN'S PHONE LAKESIDE ONE

Let us get back to common-sense natural food

A CENTURY ago a wealthy faddist in old London invited his friends to a "white dinner." Nothing but the old-time whole-grain bread had ever been used before, but a Hungarian miller solved the problem by removing from the dark-colored flour everything but the white starchy parts so that the bread too, at the dinner, might be white. The idea of white foods became a fad and the craze spread all over the world.

"MURDER!" IS PARENTS' CRY AT AUTOPSY

Physician Absolved Following
Child's Death; Shock, Not
Diphtheria Serum, Said to
Have Resulted in Fatality

Father and Grandmother of
Dead Boy Hurl Epithets at
the State Health Expert Who
Gave Order for Treatment

That the life of little six-year-old Tommy Pennington, who died at the Isolation Hospital in San Francisco Wednesday morning after an injection of serum administered as a protection against diphtheria, might have been saved had the latest methods of the medical profession been followed, was intimated today by Dr. Hubert N. Rowell, Berkeley physician.

The Board of Health at an autopsy performed in front of the Pennington family physician, Dr. Fred C. Chadwick, found that shock caused the child's death and not the serum. They also absolved Dr. H. L. Curtis of the Board of Health, who administered the anti-toxin serum, from all responsibility. The relatives of the dead boy do not agree with the findings of the Board of Health.

"Cold-blooded murder," was flung at their heads during the autopsy by the boy's grandmother, Mrs. Mary Hanna Thomas Pennington, the boy's father, was inconsolable.

"You have done murder!" he shouted at Dr. Curtis.

Dr. Rowell's contention is that the administration of what is known as the Schick test would have revealed the liability of the boy to contract diphtheria prior to the administration of the serum. He said:

The Pennington case is a medical curiosity—one out of ten thousand. There is now a safeguard against such regrettable incidents as the death of the Pennington boy. It is known as the Schick test and is being used in the East extensively and to a minor extent on this coast. The test consists in rubbing a small quantity of diphtheria poison into a small wound on the child's neck. If there is a positive reaction, it shows that the child has a tendency to contract diphtheria. In that case, we immunize, by an injection of

Drinkers and Drug Users Need Genuine Neal Treatment

Imitation and substitution are the highest form of flattery. The great success of the Neal, 3-day treatment for drink has numerous imitators. But there is only one Neal Institute in San Francisco where the genuine Neal Remedies are administered. It is located at 1500 Fell street.

Blue Bird Bureau

The community gains most by helping those who are working hard to help themselves. Here is an opportunity.

The family is not a large one, but there are some little children. The father—well, the mother and a boy of

about 14 are the only source of income. The mother works hard in a factory in Oakland all day, and then returns home to cook, sew and clean and take care of her family.

The boy goes to school, and helps support the family by carrying a paper route. It is here that someone may be able to help. On foot the boy can cover one of the small paper routes. If he had a bicycle he could obtain a larger one, paying more

money, and cover it in the same length of time.

Has some one outgrown the use of a bicycle, perhaps graduated to the motorcycle class? The earnings of the family are hardly sufficient to provide food and shelter, much less the extra expense of a wheel. Here is an opportunity for intelligent philanthropy.

Bureau was received today from, a father who has been having a hard

struggle to keep his two children since the death of their mother. Some Good Fellow provided presents for the youngsters at Christmas time, when the father was using his every cent to care for them in his home, without having to place them in some institution.

POPE WILL MAKE MOVIE FOR PEACE

Reunion of All Christians to Be
Sought by Cardinals' Work.

WASHINGTON, Jan. 5.—Private letters from the Vatican received by Dr. A. Palmieri of the Library of Congress announce that Pope Benedict XV has decided to appoint a commission of four cardinals to renew a movement begun by Pope Leo XIII and abandoned by Pope Pius X looking to a reunion of Christianity and the cultivation of friendly relations with the Anglican Church. A public announcement from Rome on the subject is expected soon.

The honor of presiding over the commission of cardinals, Dr. Palmieri has been informed, will be bestowed upon Cardinal Nicola Marini, who has devoted many years to scientific research and to the cause of a reunion of Christianity. The interest of the pope in the problem of Christian unity is said to have been intensified by the recent progress of the world congress initiated by the American Episcopal Church.

VIEW OF ROME.
Dr. Palmieri, summarizing the information received from Rome, said:

The new pope has made an admirable part in the efforts of neutral nations to establish peace among nations and the Vatican's efforts have been suggested not only by a humanitarian spirit but by a long yearning for Christian unity. Efforts of Leo XIII for carrying out the reunion of Christianity were abruptly stopped by Pius X, who aimed at an inner reform of the Catholic clergy and turned all his energies to crushing modernism.

Benedict XV thinks it is time to renew the policy of Leo XIII and also that the re-establishment of a political peace will be the first step toward renewed attempts to stop the splitting of Christianity into a great number of sects.

It seems to the Vatican that the orthodox Slavs will be very soon called to take a more active part in the life of western nations, either Protestant or Catholic, and that it is necessary to come to an understanding with them in order to avoid evils produced by religious intolerance.

One of the most important tasks of the new commission will be a thorough re-examination of the arguments on the validity of Anglican ordinations. The bull "apostolicum sedem" by Leo X, which ordered the negative the problem of that validity, but generally theological schools assume a more favorable attitude toward acknowledgment of the validity of Anglican ordinations. The new commission of cardinals will carefully ponder the reasons set forth by Russian and Anglican divines against the decision of Pope Leo X. The friendship of the Anglican Church is appreciated by Rome, for she may be a link of union between Roman Catholicism and Russian orthodoxy.

TASK IS LARGE.
The interest of the Vatican in the problem of Christian unity has been aroused by the recent progress of the world conference, the well known initiative movement of the American Episcopal Church. The movement toward Christian unity started by the world conference excited interest and sympathies in Rome, and Cardinal Gasparri, in the name of the pope, wrote to the secretary of the world conference, Robert H. Gardiner, several letters which seem to reproduce the style and the feelings of Leo XIII. But, that correspondence would not have had any tangible results if the conference had not met with a great success in Russia. The official organ of the holy synod has praised the initiative of the world conference and exhorted the Russian hierarchy to give their co-operation to it.

Road Workers Present
Governor With Furs

SACRAMENTO, Jan. 5.—One of Governor Johnson's most treasured 1916 Christmas gifts is a fursuit presented to him by the "boys" who are constructing the highways of the California state system. The coat is lined with fox skins from gray to the white of the snows of the Cascade ridge a thousand feet above the sea on the state highway between Bakersfield and Los Angeles.

The collar is of another skin. Two hundred men of the state highway force joined in making the present to Governor Johnson and in the letter of greeting which accompanied it, they said:

When it is 10 below in Washington and you are wearing this coat, may you think of the warmth of the hearts you have left behind you in California.

Governor Johnson was very much touched by the gift.

Noted Lecturer to Be
Heard in Oakland

A coming attraction of general interest, especially to those having at heart the best interests of the community, is the lecture on "Community Deadends" which will be given by Thomas Brooks Fletcher, well known lecturer, on Monday evening, January 15, at the Technical High School Broadway and Forty-fifth street, Oakland.

The lecture marks the second attraction in the lyceum course being given this winter under the auspices of the Oakland Teachers' Association and is of widespread interest by reason of the fame and attributes of the lecturer.

Fletcher, acknowledged to be the youngest man of similar renown on the American lecture platform, is one of the six men of the United States selected by Everybody's Magazine as standing in the first rank of publicists and builders of national thought. He is a recognized authority on community activities.

Towel, Woven Like
\$5 Bill, Is Seized

CHICAGO, Jan. 5.—A Turkish towel, a replica of a five dollar bill, which had been on exhibition in a local saloon, has been confiscated by government secret service operatives.

The towel, the feet nine inches long and one foot ten inches wide, contains all of the colorings, figures and serial numbers of a piece of currency, all woven into it in var-colored materials and is, according to government agents, the only thing of the kind they ever saw. One of the bartenders, it was asserted, purchased it in South America. There will be no prosecution, it was announced, although it was confiscated under the counterfeiting act.

Engine Drops Into
Water; Man Is Killed

CHIPPewa FALLS, Wis., Jan. 5.—One workman was killed and two others fatally injured at Wisconsin Dells, on the Chippewa river, when a motor launch when a 225 foot trestle, 20 feet above the river, gave way and precipitated an engine and one car into the river.

Several men were buried beneath sand and gravel with which the cars were loaded and seriously injured. The engineer and fireman jumped from the cars and escaped injury.

SAVE YOUR HAIR!

25-CENT BOTTLE STOPS DANDRUFF

Every Bit of Dandruff Disappears and Hair Stops Coming Out.

Try This! Your Hair Appears Glossy, Abundant, Wavy and Beautiful.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderuff tonight—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderuff from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

Danderuff is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.—Advertisement.

Wilson's Kin Named in 'Leak' Probe

Tumulty Also Mentioned by Wood

(Continued From Page 1)

poem had been ordered for the appearance of Bernard Baruch and A. Curtis, a Wall-street broker, mentioned by Representative Wood in his testimony. They will probably appear Monday.

BROKERS GET WORD.

What information he had regarding the so-called leak, he said, was only hearsay and he feared that a public statement would interfere with the work of the committee in obtaining witnesses. Wood testified he had been informed that on Wednesday, December 20, which was prior to the publication of the note, a confidential telegram had been sent by W. W. McKinnon, of Thompson & McKinnon, brokers, of Chicago, to Ralph H. Harley, manager of their branch at Oshkosh, Wis., advising him that the President would have a message of importance soon and that he should advise friends and patrons of his office to sell short on stocks.

Early in the afternoon of the same day, Wood said he was informed, through the office of the President, that the President was about to send a "peace note."

Representative Wood requested that Otto Kahn of Kahn, Loeb & Co., New York, be subpoenaed and interrogated regarding what advance information he had, if any, about the note.

ASK TO PRESERVE DATA.

A resolution to ask the New York Stock Exchange to preserve all its books and papers from December 10 to the present date and another to make the same request of W. B. Hibbs & Co., and any other brokers in Washington, were approved by the committee.

"I have information also," Representative Wood told the committee, "that an exchange firm here known as 'P. A. Connolly & Co.,' of which a Mr. Boling, brother of the President's wife, is a member, engaged in profitable transactions during the recent flurry. Their dealings on the stock exchange were made through Hutton & Co. of New York, reputed to be one of the largest speculative concerns in Wall street."

Asked by Representative Henry for the source of his information, Wood said that most of it came from M. A. Curtis, a broker and stock dealer in Wall street.

"Who gave you the information about Barney Baruch and Mr. Tumulty?" Representative Henry asked.

"Did you see him, and where?"

"No, I never saw him," Mr. Wood replied. "It came to me in a letter."

Asked for the letter the Congress-

man said he did not have it with him, but would get it later.

"Where did you get your information about the Connolly firm and the Mr. Boling you spoke of?"

"FORGETS INFORMATION SOURCE." "That has been a common rumor prevalent for several days," said Representative Wood. "I learned it from several sources, but don't remember just where."

"You certainly must have received it from some one."

"Yes, but I don't think I can recall just who told me that. I heard it at the time, but I have not taken the names of all persons who gave me information."

Here Representative Wood interrupted the questioning to say:

"I have said and I wish to say again at this time that I have made and am making no charge against any one. I am merely giving you information I have received."

That public position has Bernard Baruch, manager of the Representative Core Campbell, ranking Republican of the committee.

"I understand he is a member of the council of national defense."

"Do you have memoranda as to the date of the alleged conference between Baruch and Secretary Tumulty at the Biltmore Hotel?" Campbell continued.

"I can't remember, but it is stated in this letter from Curtis to me."

"In these conferences between Tumulty and Baruch, what is meant to be implied by the word 'conference'?" asked Representative Garrett, a Democrat, member of the committee.

"Only that they were talking together and registered together," said Wood.

"Of course, you have no information as to what they talked about?"

"No, I have not."

REFERS TO LAWSON'S WIRE. Referring to the inclusion in his resolution of reference to Thomas W. Lawson's telegram hinting that members of Congress sought to dodge an inquiry, Representative Garrett asked if Wood had any information in any way indicating that members of the House were involved in the "leak" transactions.

"I have no information whatever involving the name of any member of the House," Wood replied. "I know of no member of the House being mixed up in this stock crash."

"I understand you to say that a firm in Washington known as Connolly & Co. profited by alleged transactions," Representative Garrett continued.

"Can you state where you got that information?"

"No more than that it was common rumor."

"Is there any one you know who might be subpoenaed in this connection?"

"No one, except Hutton & Co."

In response to further questioning Wood said he understood Hutton & Co. were the New York representatives of Connolly & Co. Wood said he had not consulted the President regarding a reported leak of the President's note, either before or after he introduced his resolution.

Wood also said he had other information and had sent a number of letters and telegrams to various persons inquiring about it.

Representative Harrison of Mississippi suggested that the witness should give dates of publication of the note and other details.

Wood replied that the crash in the stock market came, or rather culminated Thursday, December 21, and that the peace message had been released for publication by the Associated Press at 12:05 o'clock that morning, for morning papers of that day.

HARRISON QUESTIONS WOOD. Representative Harrison tried to bring out that in the 48 hours between the time the peace note was forwarded and published, information regarding it could have come back from the foreign powers to some of the embassies here. Wood said he had heard some information to that effect, but could not say where he got it. He also said he had heard an intimation that the German embassy in this country had gotten that information back here.

Harrison referred to Secretary Lansing's conference with newspaper men on the morning of December 20 and suggested that at the conference there were representatives of the Wall Street Journal, the Police America, and that these papers were to get all tips that would affect the stock market. He added that these journals are maintained by stock brokers and suggested it might have been that those financial reporters sent telegrams to their offices at that time that was the way the information got out.

Wood replied he did not know about that, and all he had heard was that Secretary Lansing told those at the conference that there might be some important information later.

Wood denied that he had any conference with administration officials before introducing his resolution, although he had talked about it with some Congressmen.

Representative Garrett insisted on knowing what was the exact charge back of the resolution.

NEW YORK, Jan. 5.—The only "A. Curtis" known to the New York Stock Exchange as a broker is Allen Curtis of the firm of Curtis & Sanger of New York and Boston, members of the exchange. When inquiry was made today as to whether Curtis was the broker referred to by Representative Wood, the firm got in touch by wire from Curtis in Boston, who replied as follows:

"Mistaken identity. I never wrote anyone."

OSHKOSH, Wis., Jan. 5.—Ralph Harley, local manager of the office of Thompson & McKinnon, said today:

"It is true that I received a message regarding the President's peace note. However, it did not come from McKinnon, but from anyone connected with the firm of Thompson & McKinnon. I received a copy of a general bulletin sent through from New York to the effect that 'two developments later in the day which may affect this market unfavorably.' Upon that suggestion I notified some of our customers."

Harley declined to reveal the name of the author of the telegram.

CHICAGO, Jan. 5.—When informed of the testimony of Representative Wood before the Congressional committee relative to the telegram said to have been sent by W. W. McKinnon, of Thompson & McKinnon, brokers, of Chicago, to Ralph H. Harley, manager of their branch at Oshkosh, Wis., advising him to sell short, McKinnon today declared positively that no such telegram had been sent by him or with his knowledge and that he had no information of the President's peace note until it was published.

COLBERT FUGITIVE

COMMITTS SUICIDE

Family of Pittsburg Broker to Make Every Effort to Clear His Name.

(Continued From Page 1)

Mazie Colbert, the Philadelphia artist's model, the police have failed to find a written statement from Lewis as to his connection with the Philadelphia tragedy. The shirt and collar he wore, however, were new and bore the same size as the bloody shirt and collar found in the Colbert apartment. The finding of the blood-stained handkerchief, the police declared, was further evidence, the police declared, that Lewis was the man wanted for the murder.

In Pittsburgh today a wife, father and mother were waiting for final word from Philadelphia's police to render final verdict whether or not Lewis was actually the man who killed the pretty model. Their verdict admittedly must be based on circumstantial evidence alone.

LAST SEEN WITH GUIL. But it was Lewis who took a taxi cab to the Wilton apartment, where he was last seen. He was the last man known to have seen the girl alive. He ran away, seeking to hide himself when the police fastened upon his trail.

Last night in Atlantic City's morgue the body of the man who carried a message to the Wilton on the night Mazie Colbert was brutally beaten to death, identified as his fare the man whose body had been taken to the morgue, a bullet through the head, a wound of the chest.

Search of Lewis' effects today disclosed two important items—first, that Lewis wore a woman's pink silk undershirt; second, that the bloody shirt and collar found in the Colbert room after the murder are of the same size as that worn by Lewis and are of the same make. Efforts will be made to identify the pink silk undershirt as one belonging to the girl.

Lewis must have felt the net tightening about him. His room at the Atlantic City hotel had been prepared as a death chamber. Lewis had stuffed a towel over the transom of his room and cut off the light in his room in some what similar fashion. Cracks around this window had been stuffed with paper. Keyholes had been stopped up—as if Lewis cringed before the eye of the law, he knew he was constantly seeking him.

His belongings were in disorder. The small caliber rifle, with which he later sought death, was newly purchased. Newspaper cuttings, the grisly details of the beautiful model's murder and the relentless police pursuit of the then unknown murderer, littered the floor. But Lewis did not add the final touch to the tragedy of the prison path until he heard the long-ferred knock of detectives at his door. Then he put the muzzle of the rifle to his forehead and fired.

Detectives, who burst the door open, found his limp body in the bathtub. They found a pool of blood on his fingers, found a handkerchief stained with what looked like blood in his bureau drawer.

DRIVEN TO FRENZY. Praguely, with the exception of a driver to frenzy by the attention centered on him, Lewis apparently was in a hopeless condition. His clothes were unkempt and he wore a shirt of cheap material—a direct contrast to the neat society man of several years ago.

While detectives say they believe Lewis killed the cafe butterfly, friends are emphatic in their belief that he is the victim of a mistake and his own conscience.

Miss Mabel Kyle, one of the women who aided the police in identifying the man in the taxi, said:

"I believe Lewis is the victim of a ghastly blunder. He was an honorable man and I still believe him innocent. He read that he had been drawn into the mystery and had no hope of extricating himself."

Lewis called Miss May Kyle, another sister, on the telephone just before he left for Atlantic City yesterday.

The few strands of black hair, which Mazie Colbert's hands found on the police found her body, lying in bed last Saturday night, may prove one of the most significant factors in the chain of circumstantial evidence being woven by the police.

Police declared these hairs, probably ripped from the murderer's head in the girl's terrible struggle for life, seem identical with Lewis' black hair.

Captain of Detectives Tate advanced as a note for the murder, the argument over money with which to pay the taxi bill Lewis owed for the trip to Germantown.

"Lewis needed money," he said; "the theory is that he entered Mazie Colbert's apartment and asked for assistance. Then he demanded a \$400 diamond ring he had given the girl. When she refused a struggle ensued and he killed her."

Dandruff Soon Ruins the Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and itching of the scalp will stop and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Advertisement.

Clears Complexion

Don't worry about blotches or other skin troubles. You can have a clear, clean complexion by using a little zemo, obtained at any drug store for 25c, or extra large bottle at \$1.00.

Zemo easily removes all traces of pimples, black heads, blotches, eczema, and ringworm and makes the skin clear and healthy. Zemo is a clean, penetrating, antiseptic liquid, neither sticky nor greasy and stains nothing. It is easily applied and costs a mere trifle for each application. It is always dependable.

CHILD DEATH TOLL

IN TORNADO RISES

Fifteen Die in Path of Storm Which Struck Oklahoma District.

McALESTER, Okla., Jan. 5.—The death toll in the mission school house tragedy at Vireton, north of here, went to fifteen when four children died today from injuries sustained when a tornado wrecked the school house yesterday. Jesse Rose, 8, and Florence Rose, 15, died at their home near Vireton, and Elsie and Raymond Perry, aged 14 and 8, respectively, died in the hospital here.

Ripping everything from roots and foundation as the tornado swept along, a little Baptist Indian mission at Vireton, with twenty-eight within, was picked up and tossed in the air, scattering its human debris as it was dragged along. But two escaped injury. The first deaths learned were:

Jessie Bristow, 17.
Lilly Bristow, 7.
Budgie Brunnett, 6.
Merla Davis, 9.
Ollie Davis, 7.
Albert Dickinson, 6.
Floyd McFall, 7.
James Paddy, 13.
Etta Pendleton, 17.
Alta Warren, 18.
Verda Warren, 14.

Originating at Richville, the storm gained momentum as it swung up the ravine and when it passed the Choctaw Indian mission it had sufficient force to tear that frail building from its foundation. Further up the narrow valley the tornado struck the Vireton schoolhouse and left nothing but three boards to mark the spot where it stood. It was almost midnight before all children had been accounted for. A couple of miles further on the storm had spent itself.

Freed Prisoner To Begin Anew

"Bear No Malice," Says Man Saved

CHICAGO, Jan. 5.—Bent, white-haired, although only 50 years old, Herman Billik left Chicago last night for Cleveland to begin life anew. Billik was freed after serving eight years in the state prison at Joliet following his conviction for murder upon testimony which now is admitted to have been perjured.

He bore no malice, he said, toward Jerry Vrzal, who confessed he had perjured himself to convict Billik of the murder of one of five members of the Vrzal family, who died by poisoning. In fact, commenting on reports that his daughter, Edna, 19 years old, is engaged to Vrzal, he said:

"If she loves him, I shall be satisfied to see them married. Every day of the eight years I was in prison I struggled to forgive those whose falsehoods sent me there. I have conquered. I forgive them all. I hate no man."

Billik said he expects, with the financial assistance of a sister, to establish a grocery business in Cleveland.

Sothorn Still Ill, But Physicians Have Hope
CHICAGO, Jan. 5.—The condition of E. H. Sothorn, the actor, who is seriously ill at a local hotel, was slightly improved today, according to attending physicians. It was believed likely that an operation will be necessary. Local physicians, however, were awaiting the arrival of Mrs. Sothorn (Julia Marlowe) and Dr. Joseph Bissell, the Sothorn family physician, who were expected to arrive from New York today. Dr. Bissell performed an operation on the actor twenty years ago for the same complaint.

Military League to Organize Veterans
VISALIA, Jan. 5.—The American Military League, an organization designed to combine in one body all men who have worn any American military uniform, was launched here today. It is proposed to bring under one standard the G. A. R., Confederate Veterans, retired army men and members of other military organizations, with a view of preserving American patriotic institutions.

'CHERRY'S CREDIT' MEANS SOMETHING TO MEN!

There are men wearing clever, up-to-season clothes right now that would have thought it an impossibility had it not been for Cherry's splendid system of extending credit.

There's a war across the waters—and vacation times comes as regularly as Christmas. Money is scarce and it's only to be expected that a man may be a little pressed for ready cash.

That's why CREDIT—at CHERRY'S splendid store—will mean convenience and satisfaction to you. The suits they have for early spring are just the kind of suits you "feel right" in.

CHERRY'S SUITS ALWAYS FIT—they'll bear up under close inspection and hold their shape through the hardest kind of wear. They're smart suits, elegant in every line.

Drop in at 528 Thirteenth street and give their clothing the once-over. See what you think of them. Their ladies' store is at 515 Thirteenth street. The San Francisco stores are at 48 and 52 Geary St. and 2400 Mission street.—Advertisement.

ANNULMENT ASKED AFTER FOUR YEARS

Mrs. Bell Left Husband Third Day, But Waited to Gain Freedom.

SAN FRANCISCO, Jan. 5.—L. A. Bell Jr., believed to be a resident of Oakland, was made defendant in an annulment suit begun here this morning by Alice Thompson Bell, who lived with him only three days, and yet has waited more than four years to obtain her freedom. Mrs. Bell, who is a woman of wealth, is desirous of selling certain property holdings in Texas, and her freedom is necessary before she can give proper title to the land.

Married in San Jose, August 30, 1912, Mrs. Bell says she discovered three days later that her husband had a wife living at Sausalito, Los Angeles county. She immediately separated from him. For months she has been searching every-

Chickens Should Be Entertained That Is Feathered Kind, of Course

DALLAS, Tex., Jan. 5.—Chickens should be amused. The feathered kind, that is. Authority for the above statement today is Mrs. T. P. Marshall, field worker for the extension service of the Texas Agricultural and Mechanical college.

Chickens, hatched in an incubator find life uninteresting because of the mechanical way in which they are ushered into the world, according to Mrs. Marshall.

"One way of amusing them," she said, "is to pile fine straw on the floor of the brooder and let them tear it down. They seem to enjoy it and it teaches them to scratch."

where for Bell, in order that she can put through the realty deal. She learned that he was living in Oakland, and has been unable to find him and serve him with the papers.

20 MILLION PEOPLE USE CASCARETS--WHY?

Only True Tonic for Liver
and Bowels Costs
10 Cents a Box.

Cascarets are a treat! They live your liver, clean your thirty feet of bowels and sweeten your stomach. You eat one or two Cascarets like

candy before going to bed and in the morning your head is clear, tongue is clean, stomach sweet, breath right and cold gone and you feel grand. Get a 10 or 25-cent box at any drug store and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. Stop, sick, headaches, bilious spells, indigestion, furred tongue, offensive breath and constipation. Mothers should give cross, peevish, feverish, bilious children a whole Cascaret any time. BOARD MEMBERS ENDORSE EDWARDS

Educators Don't Want Con-
frere Transferred to Other
Department.

Overruling the modest protest of Com-
missioner W. H. Edwards, ex-officio
member of the city board of education, the
members of that body last evening
adopted a resolution endorsing his past
work as a school director and making it
the sense of the board that he be not
transferred from his present department
to the department of public health and
safety.

Director Harry L. Boyle stated that
it might be considered "bad taste" for
the school board to "mix up in the council
mess" at this time and suggested that
if politics were to be done by the board
they might as well as endorse the
candidacy of Director F. B. Cook for
commissioner of public works. Boyle's
suggestion was not acted upon, but the
resolution of Director Louis Abor relative
to the endorsement of Director Edwards
was unanimously adopted.

At the approaching spring election
there will be three vacancies on the
school board to be filled. Miss Annie
Florence Brown, president, has announced
that she will not seek re-election. The
terms of Director Cook and of Mrs. Har-
riet Hayes also expire. President Boyle
has instructed Superintendent
Barker to name a committee which
will investigate complaints regarding the
temperatures maintained in the schools.
Earlier said that the average temperature
sought to be kept in the rooms is 65 de-
grees but that some teachers wanted it
higher and some lower.

FORMER JUSTICE IS FOUND DEAD

Arthur A. Wilder, Honolulu
Social Leader, Took
Own Life, Theory.

HONOLULU, Jan. 5.—Arthur A. Wilder, former associate justice here and prominent socially at Honolulu, was found dead in his home here yesterday. The police said their in-
vestigations showed that he shot him-
self while standing in front of a mirror.

His wife, said to be in San Fran-
cisco, divorced him recently, and, ac-
cording to his friends, he had been
brooding over this and financial mat-
ters.

It seems that he might kill himself
prompted his friends to make special
efforts during the last few weeks to
divert his mind from his troubles.

Mrs. Wilder is well known in the
bay region. Local society was some-
what surprised on November 23, 1915,
when it became known that Mrs.
Wilder, arriving in Honolulu on that
date, had filed suit for divorce and
that Judge Wilder reached San Fran-
cisco on the same day from Honolulu.

Bledsoe Presides at Court Upon Train

SAN FRANCISCO, Jan. 5.—On the
Overland Limited which left San Fran-
cisco yesterday afternoon special sessions
of the United States District Court will
be held, and although no witnesses will
be examined, attorneys will argue before
Judge Benjamin F. Bledsoe the admis-
sibility of certain evidence in the so-called
"fraud" suits in which the government
is seeking to cancel patents on oil lands
acquired by the Southern Pacific.

For the convenience of witnesses for
the defense, Judge Bledsoe consented to
hold court in New York on January 19.
This is the second transcontinental trip
taken by the court and its attaches in
this case. On portion of the government
a session was held in Washington, D. C.,
last summer. This was the first time
a federal court ever crossed the contin-
ent for the purpose of hearing testi-
mony.

Surgeon's Fur Coat Causes Auto Blast

ANNAPOLIS, Md., Jan. 5.—Electricity
induced by the action of a fur coat worn
by Surgeon Raymond Spear, U. S. N.,
grounded through an automobile standing
on wet ground and caused a spark which
exploded the gasoline, burning Surgeon
Spear severely and destroying the ma-
chine.

Surgeon Spear had walked some dis-
tance to his garage in his fur coat and
rubber boots. The friction of the flap-
ping of the coat against his legs gen-
erated the electricity, while his boots
insulated him from the ground and al-
lowed his body to store it. A spark did
the rest.

Three Hurt When Auto Turns Turtle on Road

W. B. Volquardsen, 2827 Myrtle street,
was seriously injured last night when an
automobile in which he was returning
from Stockton struck a culvert and
overturned on the Foothill boulevard near
the Fick school. He was removed to his
home and treated by Dr. Bell.
Eighteen-year-old John O'Brien, who
was in the auto equipped with slight in-
jury. The men had been engaged in painting
work at Stockton. The accident oc-
curred when the driver of the car turned
out to avoid striking a lumber wagon.

Always Had a Hole in Pocket Pay Day

LOS ANGELES, Jan. 5.—"No matter
how much I mended his clothes, he al-
ways said he lost part of his wages
through a hole in his pocket," Mrs.
Alfred Wood said, complaining
of her husband's neglect. She was given
a decree.

He's Young, But Still He's a Fascinator

LOS ANGELES, Jan. 5.—Another
youthful prodigy found. Clyde Blake,
aged 20, will be tried here March 1 on
charge of bigamy.

Not Quite Down and Out.
Many a man feels that he is down and
out when as a matter of fact he still
has in him many years of good service
that can be brought out by proper treat-
ment. Stomach trouble often makes one
despondent. It hits him when he lives,
saps his strength and energy and makes
him feel like giving up. Give him a few
boxes of Chamberlain's Colic, Cholera
and Diarrhoea Remedy and invigorate his
liver and bowels, and in most cases re-
covery is prompt and effectual. For sale

WHITAKER BACK FROM GUATEMALA

Blackmail, Handcar Mishap
and Other Adventures
Befall Author.

Accompanied by his wife, Herman
Whitaker, novelist and playwright, has
returned to his home, 716 Sausalito ave-
nue, from the west coast of Guatemala
where, after a series of sensational ad-
ventures he finally succeeded in filming
the opening sets of his new play, "The
Planter." On his trip Whitaker was the
victim of a band of blackmailers who
threatened to drive him out of the
country unless \$3,000 was paid. Whit-
aker reported the matter to the author-
ities and the incident was officially
ended.

Mrs. Whitaker had a narrow escape
from death when a handcar on which
she and her husband were riding was
run down in the dark by a train near
Ocosingo on the west coast. The Whitakers
had gone down to the coast on a spur
track connection to watch the sailing
of a German boat which ran ashore nine
years before. On the return trip, which
had to be made on the handcar, the
accident occurred.

Whitaker saw the train in time to
hurl his wife to one side and jump
himself. The handcar was ground to
bits, but both the novelist and his wife
escaped injury.
Whitaker and his wife, while in the
country, were guests of President Cab-
reria, through a letter of introduction
from Secretary Lansing at Washington.
Cabrera permitted pictures to be taken
of himself and his family in the private
apartment of the president's quarters.
The occasion marked one of the few
times the distinguished statesman of the
southern republic has been photo-
graphed.

Admiral Knight to Head Asiatic Fleet

WASHINGTON, Jan. 4.—Rear Admiral
Knight, head of the naval war college,
was designated by President Wilson to
take command of the Asiatic fleet, with
rank of admiral. He succeeds Admiral
Winterhalter who has completed his
tour of duty and is assigned to duty
with the general board.

Associated Oil to Face Federal Suits

LOS ANGELES, Jan. 5.—Suit to en-
join the Associated Oil Company and fif-
teen individuals from further production
of oil on the company's land in Kern
county were filed here today by the gov-
ernment. The wells were alleged to have
been operated in violation of the 1909
withdrawal order of former President
Taft. The land is a quarter section in
the Naval Reserve.

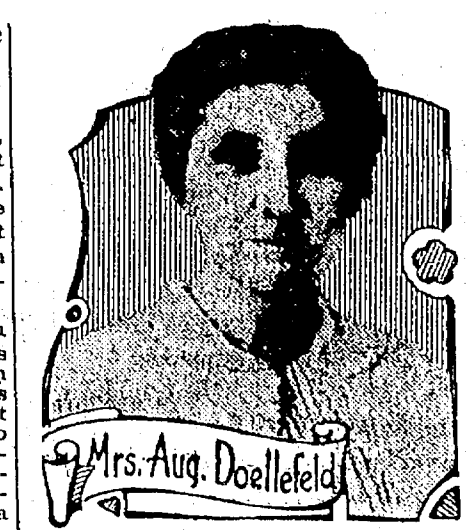

Keeps Her Children In Perfect Health

Dr. Caldwell's Syrup Pepsin the
Family Laxative for
Many Years.

Mrs. Aug. Doellefeld of Carlyle, Ill.,
recently wrote to Dr. Caldwell, at
Monticello, Ill., that she has used Dr.
Caldwell's Syrup Pepsin in her home
for a number of years, and would not
be without it, as with it she has been
able to keep her four children in per-
fect health.

Dr. Caldwell's Syrup Pepsin is a
combination of simple laxative herbs
with pepsin that acts on the bowels in
an easy, natural way, and regulates
the action of this most important
function. Nearly all the ailments to
which children are subject are trace-
able to bowel inaction, and a mild, de-
pendable laxative, such as Dr. Cald-
well's Syrup Pepsin should have a
place in every family medicine chest.
It is pleasant to the taste and children
like it, and take it readily, while it is
equally effective for adults.

Dr. Caldwell's Syrup Pepsin is sold
in drug stores everywhere for fifty
cents a bottle. To avoid imitations
and ineffective substitutes be sure you
get Dr. Caldwell's Syrup Pepsin. See

that a facsimile of Dr. Caldwell's
signature and his portrait appear on
the yellow carton in which the bottle
is packed. A trial bottle, free of
charge, can be obtained by writing to
Dr. W. B. Caldwell, 455 Washington
St., Monticello, Illinois.

FRIDAY, JANUARY 5, 1917.

OIL MEN LOSE AGAIN.

The hope which has long been held out to the operators and the thousands of others interested in the oil industry of California went a-glimmering yesterday, when the Senate public lands committee eliminated the Phelan amendment from the general mineral land leasing bill. To those who had followed the situation closely it had been, to be sure, only a slight hope, but nevertheless one that had been "played up" by the administration, and particularly by the operators who had relied upon Mr. Phelan's assurances that he was thoroughly convinced that the California oil industry was deserving of relief from harassment by the arbitrary interpretations of executive orders and laws by the agents of the departments of the Interior and Justice.

That the government has broken faith with the operators is plainly established by the records. Just before the first session of the present Congress adjourned it was agreed that a vote on the proposed Phelan amendment would be taken December 12, and the Senate calendar was fixed accordingly. Not only has this pledge been violated, but no vote will be taken. The amendment has been killed in committee. It is demonstrated once more that Secretary of the Navy Daniels and his proteges are dictating the administration's policy regarding oil land reservations. Considering the capacity of Mr. Daniels to adopt a rational and just policy in the light of his purchase of 100,000 pairs of pajamas for the sailors of the navy, his sale of junk of tobacco with a market value of \$50,000, and his public confession to inaccurate statements regarding naval officers, and many similar acts, confiscation of their property is about the best the oil men can expect, unless the Daniels clique is defeated.

The object of the naval secretary and the effect of the conduct of the agents of the Interior Department and of the Department of Justice is to disregard the letter and spirit of the Phelan bill of 1910. This law provided that patents should issue to such locators who could show that they had filed their claims prior to the Taft withdrawals of 1909 and who had continuously and diligently prosecuted the work of discovery of oil. The bureau underlings have declined to recognize any kind of work as being continuous and diligent. Therefore, no patents have been issued to locators, although many of the smaller operators have spent all they possessed and could borrow in perfecting their title. It is impossible, in the absence of full and comprehensive data, to say who is and who is not entitled to full ownership of their claims, but it has been established that many locators are justly entitled to patents.

But they are to be denied their obvious rights; they are to be given nothing more than the privilege of leasing the land and paying a royalty to the government—in certain locations—if the plans of the Secretaries of the Navy and Interior go through.

This will deal the California oil industry a severe blow. It will crush many small operators financially and will cause heavy loss to the great army of holders of oil stocks, bonds and other securities.

WHAT NEXT?

Having dismissed the joint American-Mexican commission from further consideration of the issues between the United States and Carranza's de facto government, the Mexican embargo is transferred to the secrecy of the White House and the President's confidential advisers. Among these Colonel E. M. House, genius of our foreign policies for the present, will undoubtedly play an important role. No complaint will be made against this irregularity of setting private hands to official business if it proves successful.

The joint commission could not longer hope to make any progress, because General Carranza has refused to sign the draft protocol which it prepared a month ago. If Carranza were any other government head, or in any other position than the one he now occupies, his action would be easily understood. The United States set down as a condition in the protocol that the Pershing expedition be allowed to remain in Mexico forty days after joint ratification and longer if occasion should arise on account of new activity of bandits. This was equivalent to imposing the condition that we might maintain an armed force in Mexico as long as we pleased, and it was attempted in so crude a form that even Carranza could not be reasonably expected to swallow it. The latter displays a flash of high-mindedness in insisting that the expedition be withdrawn before he proceeds with discussion of any other differences. This would excite admiration if Carranza's position was what he claims—that he is able to deal with internal troubles successfully without outside help and to safeguard the American frontier. But we know that he is not and has never been in a position to assert this claim truthfully, notwithstanding that the American government officially concurred in the assertion when it extended him recognition.

But no matter what the de facto government claims and insists upon, the Pershing expedition ought to be withdrawn. It is doing nothing to repair its failure to capture Villa. It is contributing absolutely nothing, in its present

position, to protect the American boundary. On the other hand, its continued presence below the border gives color to Carranza's plea that his prestige among his own people has been weakened by the invasion and long occupation. And there cannot be any doubt that Villa has won thousands of recruits to his ranks through advertising the idea that Carranza cannot drive the gringos out.

It is time for the government to cease being unfair to itself, to the recognized government of Mexico and to the Mexican people. The policy has met with nothing but failure from the moment it was adopted. It deserved nothing else.

FATAL CARELESSNESS.

The sudden death of a little child in San Francisco disclosed the fact that it is the habit of the city and county health officers to go around with a tube of antitoxin and a syringe and attempt to inoculate diphtheria patients wherever they happen to be found. This child was called into the house from his street play to receive treatment and died thirty minutes after the injection was made. But in the meantime the health officer was on his way elsewhere and no doctor was on hand to watch the course of the first symptoms.

It is to be hoped that this unfortunate case will not have the effect of arousing any opposition to preventive measures against contagious disease or to any remedies that have been proven efficacious in reducing the mortality rate from such diseases. But one thing it cannot fail to do is to give the public the impression that health officers are often careless and dangerously self-confident in performing their duties.

It has subsequently developed that the dead child did not have diphtheria at all, and the reasonable supposition is that he would have lived had the health officer overlooked him. If there is the slightest chance of fatalities from any publicly administered treatment the prospective patient should be taken to a public hospital, where proper attention and care may be given. At least it seems proper to avoid injecting a potentially fatal dose of antitoxin to a diphtheria suspect on the public street.

As a mineral producing State, California continues to go forward. The value of her output of gold, silver, copper, lead and zinc in 1916 was \$44,384,000, an increase of 38 percent over last year. The value of the gold mined was \$22,939,000, an increase of 6 percent over the figures of 1915, and it was the largest in thirty years, and with one exception in fifty-two years. The value of the silver output for last year was 69 percent greater than the previous year and copper showed an increase of 140 percent. With the exception of gold, the increase in the market prices of minerals accounted for part of the total increase in values, but new activities and methods in mining continue to wield an influence on the value of mineral output, which is of greater significance than any other factor.

The advisability of restoring tariff duties on wool, rubber and coffee and of increasing the tariff duty on sugar is under consideration by Treasury Department officials and the Ways and Means committee of the House. Senators Underwood and Simmons will appear later in their thrilling oratorical act, entitled "Defending the 1913 Tariff Schedule."

RIVALRY OR COOPERATION.

(New York Journal of Commerce.)

In the letter of our correspondent in Tokyo it was stated that one of the questions which are now attracting an increasing share of attention in Japan is that of consolidating the nation's commercial interests in China, before the conclusion of the war. The commercial and manufacturing interests of the empire anticipate keen competition with British and American merchants in China on the conclusion of peace in Europe, when western trade will again be free to assume activity in the Far East. Hence the present is looked upon as Japan's golden opportunity to take precautions against undue competition. There is a note of weakness in the phrase "undue competition," hardly characteristic of the Japanese. From unfair competition they have nothing to fear—in fact, it is their rivals in the Chinese markets who have had occasion to complain of special preferences being afforded Japanese trade. But if Japan is not able to meet across her own border and partly within her own sphere of political influence, the competition of the world, she must be more poorly equipped for foreign trade than present indications would make it appear. Our correspondent suggests that Japan's greatest disadvantage is her inability to meet her rivals on even terms financially, but that is really equivalent to the statement that, in spite of her recently acquired wealth, Japan is still far from being in a position to play any considerable part in the material development of China. The question is, therefore, of some importance whether, laying aside all thought of rivalry, and discarding all sentiments of jealousy or distrust, America and Japan cannot work together in the material transformation of China.

That idea was first suggested by Judge Gary at the semi-annual meeting of the American Steel Institute at St. Louis last October. He said that from the business standpoint the Japanese manufacturers, merchants and financiers were desirous of cooperating with those of the United States, to the fullest extent, in protecting and promoting the welfare of both and at the same time benefiting those in other countries with whom both may be conducting business. It was Judge Gary's opinion that the commercial and financial classes of Japan understand and appreciate the spirit of cooperation which has actuated the men engaged in the iron and steel business, and they would be pleased to consider with men on this side all legitimate plans for the application of the same principle. The question was seriously taken up a month later at a meeting attended by 112 American citizens resident in Japan where the theme of the addresses was the need of closer cooperation between the members of both nationalities so as to create a better understanding, and promote larger and more profitable business activity. The president of this assemblage suggested that one of the most favorable methods to bring about such cooperation and business partnership was for America to seek more strongly for a financial and participating interest in Japanese manufacturing and other commercial enterprises, either wholly within Japan itself or for operation in adjacent countries where Japan is interested. This was a business policy which he regarded as entirely feasible, and he went on to state that such enterprises could be carried on to the entire satisfaction of both sides. The suggestion carried the more weight inasmuch as the speaker declared that he had had an actual experience of several years in connection with such Japanese associates. He said there was no doubt as to the willingness of the Japanese to cooperate in this connection and to welcome American participation. Statements to that effect had been made by Japan's greatest business men and financiers, and it only needed the acceptance of Judge Gary's point of view on the part of the business community of the United States to make the proposed cooperation a reality.

NOTES and COMMENT

We expected it would come to this. A San Francisco footpad knocks a man on the head and steals his shoes. A man's purse is trash since leather took to skyrocketing.

Carranza's agents are reported to be negotiating with Japan for war munitions. All such things hasten the day when Uncle Sam will have to go in and reduce the row down there.

The Gridley Globe announces with all due solemnity that the days are growing longer. "We congratulate the Globe," says the Marysville Appeal, "on its perspicacity." And we congratulate it on its perspicacity.

A newspaper article is to the effect that the Democrats are worried over the inevitableness of imposing drastic taxation in a time of peace. But that is nothing to the worry that awaits the taxpayers when it comes to putting up.

The Southern Pacific and Santa Fe companies jointly own the Northwest-Pacific, and take turns in operating it. This year occurs the Southern Pacific's turn. Just like camping parties in the matter of washing the dishes.

The new wholesale district is the transformation of a hitherto neglected corner of the city into one of its busiest sections. And incidentally, it results in the clearing of a retail district from the clutter and blockade that had got to be objectionable.

The twelfth bomb cigar has been located. There has been publicity enough to warn the recipients of the others of their unsmokable character. The humorist who made and launched these practical jokes, however, succeeds in maintaining his incognito.

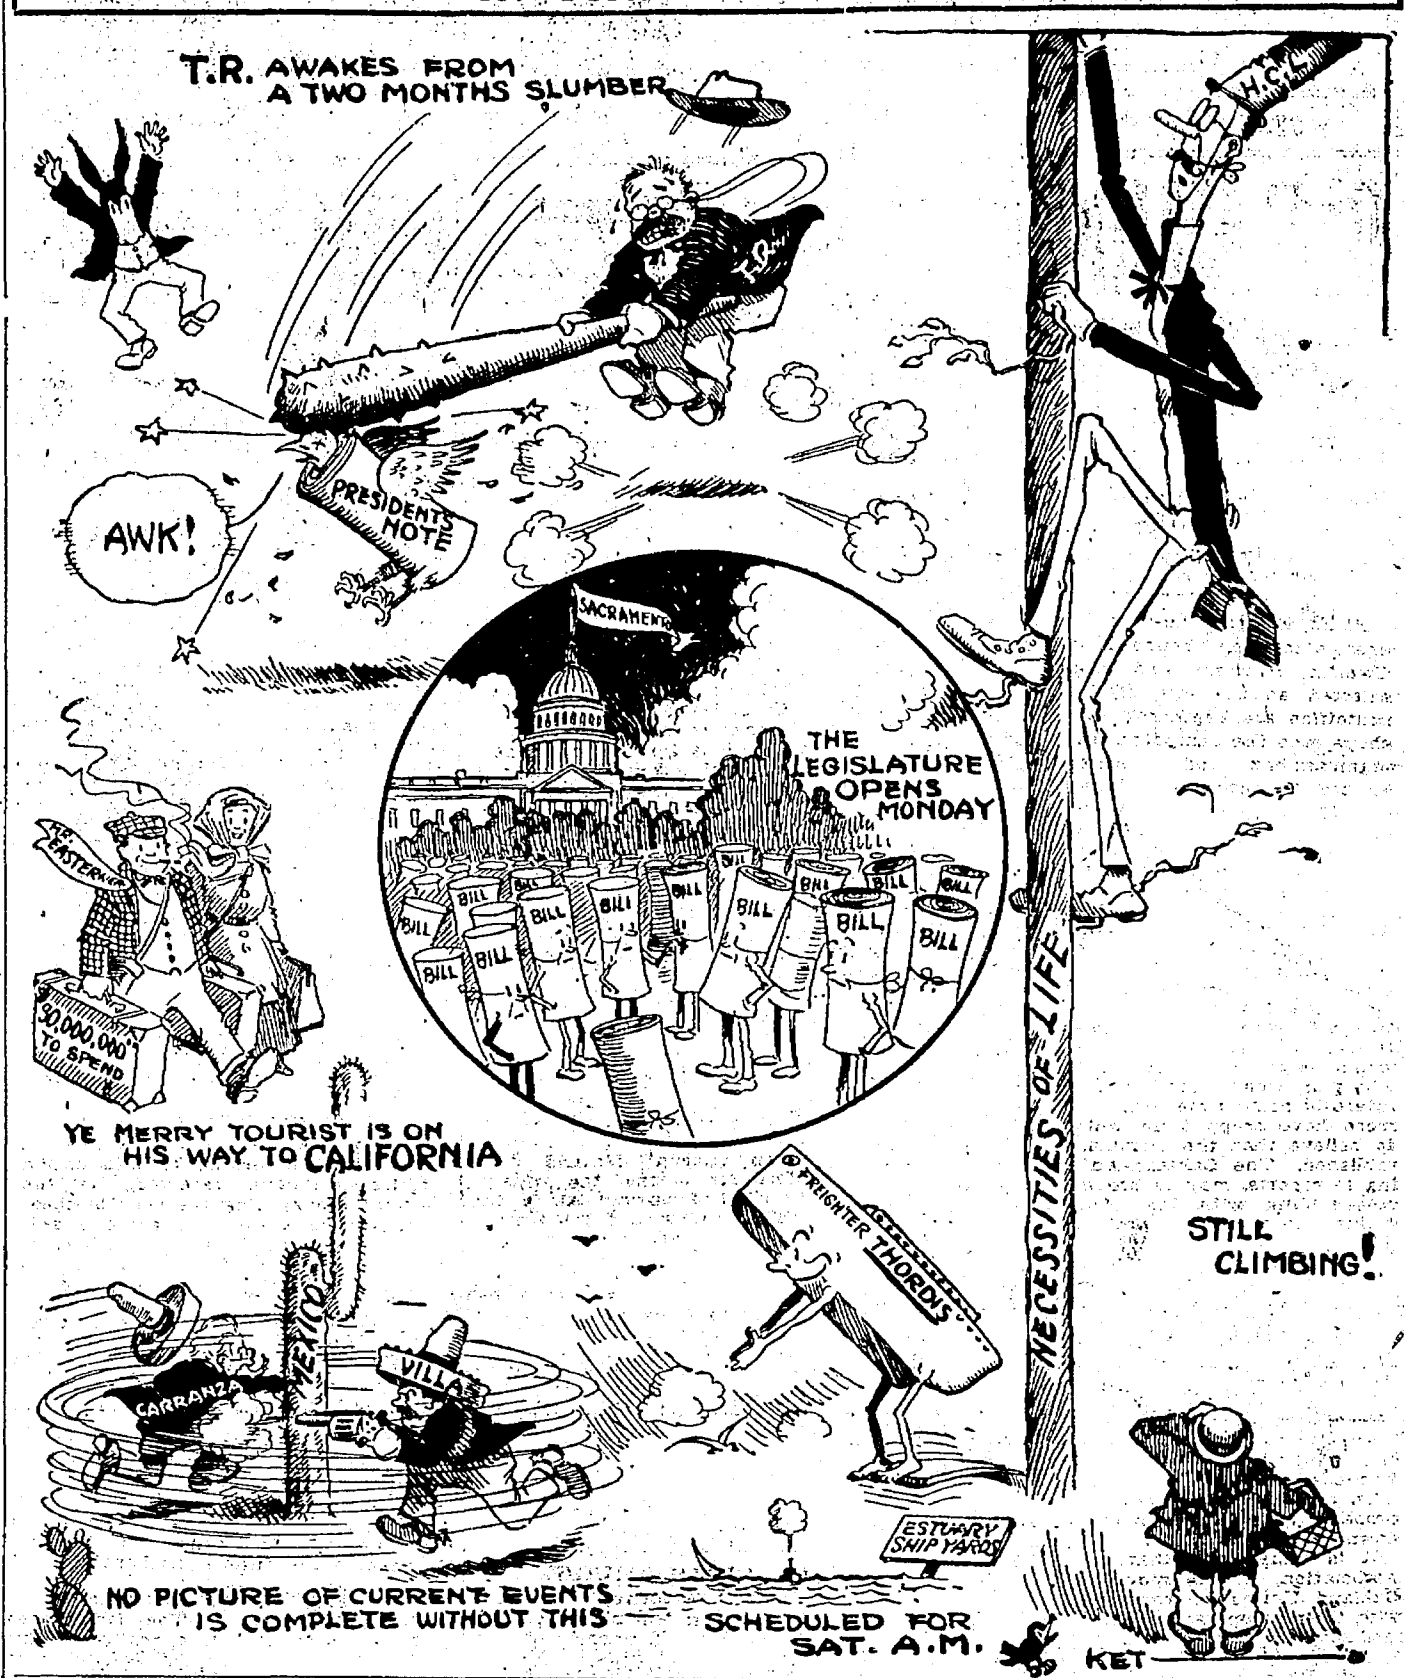

A Los Angeles young man is vainly sought. Six months ago he was paid a legacy which belonged to another of the same name. Such prompt probating rarely happens. If the one who got it had been entitled to it, the chances are that he would be waiting yet.

Shivory item from the Santa Ana Blade: "If Theda Bara is as much of a vampire as her pictures would appear to indicate, we should think she would be afraid to trust herself alone in the dark. Personally, we would not sit in a hammock with her for \$88,000. What?"

Commercial announcements appear of the sale by auction of two million paper bags and three hundred barrels of flour. We have been so fed up with statements of the advancing price of paper and of flour that this method of disposing of such large quantities is not quite understandable.

"Teachers in fear of book trust." We had supposed this bugaboo was laid. The book trust has been so far outclassed by the cost of home-grown product that it has a hardihood to make its appearance again. But upon close reading it is found to be principally the State printer who has manifested the fear.

IN THE PROCESSION.

THE JESTER.

A Pertinent Query.

"Can't you spare me a dime, mister?"
"Not today."
"I haven't had a bite since yesterday."
"Can't help it."
"Why can't yer do a little for me?"
"I haven't any change."
"No change?"
"That's what I said."
"Den why ther dikkens don't yer go to work?"—Boston Transcript.

Very Serious.

"Are your intentions towards the widow really serious?"
"You bet! I am goin', if possible, to

get out of marryin' her."—Boston Transcript.

IN THE NIGHT.

He struggled down the twisting road,
Lost in the black, barbaric night;
Stumbling beneath a bitter goad,
Crying, "Alas! There is no light!"
His strength was gone; his spirit
quelled,
He stopped, and in a desperate
mood,
He raised his eyes to see, lo, he beheld
The stars—conquering multitudes!
—Louis Untermeyer, in Everybody's
Magazine.

TODAY 20 YEARS AGO.

The law library, which started but a few years ago, has outgrown its quarters in the Courthouse and an effort is now being made to have the supervisors give more room to the association.
There will be an important meeting of insurance men in Loring hall this evening. The gathering will signalize the termination of the rate cutting war which has been waged bitterly for nearly two years.
The Elbell Society gave the "Hrat luncheon" place moving into their quarters today. It was attended by fully 100 guests.

OLD MARKET OFFERED AS P. O. SITE

Plans to have the old Produce Exchange location, bounded by Eleventh, Twelfth, Harrison and Webster streets, selected as the site of Oakland's new postoffice are beginning to take definite shape, and the campaign that commercial organizations and businessmen have started in favor of this block as the ground supporting the United States building are gaining in strength.

According to figures advanced today, the site measures 200 feet on Webster and Harrison streets and 300 on the Twelfth and Eleventh highways. It is listed that the purchase price is \$300,000. The block is the property of the Twelfth Street Realty Company, in reality a sub-company of the Realty Syndicate.

For many years the property belonged to the F. M. Smith traction interests, and it was always understood that this site would be the future Key Route terminal. The plan was abandoned by the traction interests some time ago, but certain rumors have cropped up which lead some to believe that the terminal may be established. The Oakland-Antioch, according to reports, may be brought into town, co-operating with the Key Route in making it a central traffic distributing point.

WORK IS OUTLINED.
In view of the fact that downtown commercial organizations are making a concerted effort to improve the district east of Broadway and bounded by Tenth and Fourteenth streets, it is thought that the postoffice selection rather than that of the terminal will obtain the support of the city's influential men and clubs. Plans for the improvement of the Southern Pacific terminal site, the Produce Exchange site and the highway at First avenue and East Twelfth street will probably receive the hearty favor of downtown associations.

It is understood that the Downtown Association, at the request of the East Oakland United Improvement Clubs, and with their co-operation, will advocate immediate improvement of the street at the First avenue and East Twelfth street corner. Widening the street at this point to allow further play of traffic, together with future widening of Twelfth street, at the point adjacent to the dam there, are among the recommendations to be made, according to reports.

LUNCHEON IS HELD.
At a luncheon given yesterday in honor of Charles Jurgens, president of the Hotel Oakland Company, and holder of some local real estate, the project was given hearty, though unofficial, commendation by leading businessmen present. The occasion was Jurgens' seventy-third birthday, and some of the following men, it is said, took part in the informal discussion regarding the site:

R. H. Cross, C. J. Hesseman, H. C. Caswell, R. M. Fitzgerald, J. H. Johnston, J. H. King, W. C. Jurgens, Dr. C. H. Jurgens, Arthur G. Tashler, J. F. Carlson, W. W. Garthwaite, Edson Adams.

8-Hour Refusal Will Cause Vote

"Big 4" Ready to Cast a Second Ballot

KANSAS CITY, Mo., Jan. 5.—That the four railway brotherhoods will take another vote, whether or not to strike, in the event the eight-hour work day is not granted by the railroads, is the declaration of the American Railway Employees' Journal, the January issue of which was published here today.

According to the Journal, the four brotherhood chiefs have asked the 840 general chairmen of the trainmen's organizations to meet in Chicago January 11.

The Journal says: "The meeting is for the purpose of consulting the general chairmen and deciding on the line of action made necessary by the railroad managers' refusal to put into effect the 8-hour working day as contemplated by the Adamson law. The entire matter will be placed before the rank and file for their decision. The Journal has faith that they will stand by their organizations and bring the railroads to their milks."

Onion Prices Climb As Demand Grows

Following an unusual demand from eastern traders for onions, the widely used variety climbed upward along the price scale this morning, and the 4-cent stage, predicted by dealers, has come true. The advance occurred within twenty-four hours, yesterday's sales finding onions selling for 3 1/4 to 3 3/4 cents a pound wholesale. This morning dealers along Produce Row announced that the demand had grown until onions were selling in ranges ranging between the 3 1/2 and 4 1/2 cent margins.

Reasons given for the advance concentrate in the one theory that eastern buyers have again invaded the coast market, taking with them the surplus of Oregon onions. California onions were cornered last fall. According to dealers, little relief may be expected.

POISON CLASH FOUGHT.
Deputy District Attorney Theodore Wittchen is fighting the claim of the State Board of Health presented to the Board of Supervisors for the killing of squirrels in Alameda county. The claim involved in the hearing before Superior Judge H. D. Burroughs of Lassen county is for \$400. If the county should win the case on the ground that the claim is unconstitutional, Wittchen will save about \$2000 in like charges.

Russell Lowry and Walter Lelmert.

These men are directors of the Hotel Oakland Company, and opinion was generally in favor of the old Produce Exchange site. Concerted efforts will be made by business and civic associations to have the east of Broadway site selected. Prominent commercial men favor it because of its proximity to the business district, its central location and because it may be reached by a number of car lines.

COAL FAMINE NOT LIKELY IN OAKLAND

With the fuel situation in California becoming graver day by day with the continuance of storm conditions in the Rocky Mountain district, Oakland continues to occupy the enviable position of the best-supplied city in the state. Despatches from southern California and points in the interior tell of complete exhaustion of supplies of coal, while Oakland dealers have enough on hand to last for three or four weeks by which time the strain will doubtless be relieved.

J. B. Muir, secretary of the Coal Dealers' Association, declared this morning that the outlook here is good. He said:

While some of the smaller dealers are out of coal, the larger dealers are supplied with quantities for three or four weeks' consumption. As a measure of precaution, all dealers have agreed to cut down all orders to one quarter of a ton until the stress is relieved.

PLENTY OF CARS.
There are plenty of cars now at the mines, according to information which we have received, but the storms are keeping the rails blocked. As soon as these cars are released, we will have shipments arriving. There are carloads coming in now a few at a time, but the usual quantities are delayed. There is no ground for alarm in Oakland, for we have coal enough to tide over the period of shortage.

Oakland owes its fortunate condition to the fact that the dealers store large quantities of coal during the summer season, when the bulk of the output from the Utah mines comes to California.

C. C. Fredericksen, a dealer in Fruitvale, declares that there is at least a three weeks' supply on hand in Oakland. He regards the outlook as hopeful.

APPEAL TO GOVERNMENT.

VALLEJO, Jan. 5.—The long feared coal famine is at last a reality in this city, and the citizens are preparing to appeal to the Navy Department for relief. Through Captain Frank M. Bennett, commandant of the Navy Yard, permission will be sought from Washington for the use of the coal supplies on Mare Island until the stress shall be relieved. Coal dealers here are absolutely without coal and what little does arrive is distributed as rapidly as it can be unloaded from the cars. Appeals have been made to San Francisco, Oakland and Sacramento, but these cities are holding what supplies they have for their own use. No shipments by rail are expected until the storms in the Rocky Mountain section cease and allow the forwarding of delayed cars.

In the appeal to the Federal government, attention will be called to the fact that hundreds of the employees of the navy yard will suffer unless the use of the government coal is allowed.

LEGAL BLOW IS AIMED AT CAFE OWNERS

That a cafe or restaurant, where women meet men and conduct themselves in a manner furthering immorality, is a place defined under the red light abatement act as a place where a nuisance is maintained, and as such may be suppressed under the act, is the decision of Judge A. E. McKenzie of Contra Costa county yesterday rendered an opinion which will close the restaurant and cafe of Phillip Pezzola, John Saporiti and Mary Smith, proprietors of a resort, who hold a lease to a building in San Pablo avenue, Richmond. The sweeping decision closes a campaign launched by the Good Government League of Richmond to close up what remains of the so-called red light district. B. E. Thayer carried the case through the hearing as plaintiff and Judge McKenzie's decision is the first to aim a blow at the practice of women in cafes.

The essence of the decision is to the effect that where a cafe is frequented, with the knowledge and consent of the proprietors, by women of the underworld, whose express purpose is to induce men to leave the building with them for immoral purposes, such a cafe or restaurant comes clearly within the act which is designed to eliminate commercial vice.

JUDGE SETS PRECEDENT.

State Judge McKenzie in a part of his decision:

Three or four women visitors to this place were constant attendants. They danced and drank with all corners of the male sex, whether known or unknown. In the dance hall these women were in the constant habit of asking the male visitors to the place, known or unknown, to accompany them to other buildings in the vicinity. From these facts it may be fairly concluded that the premises in question was a rendezvous used for immoral purposes.

While the court does not consider that the cafe was used for immoral acts, he holds that the place was a meeting place. The place, he finds, was conducted in a notorious manner for the purpose of allowing women to meet men for immoral purposes, and as such was a nuisance under the red light abatement act.

The court says:

CLASS IS LARGE.
Without considering social conditions during the past ages, it is common knowledge that in California, at the time of the enactment of the red light law, there was a large and constantly growing class of both men and women, probably a majority of them of foreign birth, who were encouraging and commercializing vice for the pecuniary gain that was to be had thereby. Even some persons engaged in reputable business encouraged this traffic on the theory that it helped business in their respective communities. This growing tendency was the cause of much apprehension among forward-looking citizens.

Discussing the application of the act to a building of the character and clearly indicating that the court means the act to apply to hundreds of cafes and restaurants in the state, he says:

It is obvious that, in one particular, the act was intended to be effective in eliminating buildings and places whose occupants would be readily recognized by the public.

The act is exclusively aimed at the owners and lessees of buildings used for the purpose of facilitating vice. It does not prescribe or impose any penalty upon the inmates of such places. At the time of the passage of the red light act, and since, laws relating to inmates of such places have been in force.

PHYSICIANS TO AID FUNDS CAMPAIGN

Meet Tonight to Assist Raise Money for New Providence.

The first meeting of the physicians and surgeons of Oakland, who are interested in the building of a modern fireproof hospital, will take place in the headquarters of the Fund Raising Campaign in the Hotel Oakland at 8:30 o'clock tonight.

The doctors feel the need of a new hospital. The Sisters of Charity of Providence intend to build a hospital costing almost a half-million dollars, if \$50,000 is subscribed by the residents of the bay cities. At the meeting tonight, a chairman and two vice-chairmen will be elected.

When the campaign for small subscriptions opens, there will be five field marshals who will have directions over six teams of ten each. Each team will consist of ten persons and each person will be given the names of ten persons whom he is to see. Each "private" will have two weeks in which to interview his ten persons.

The advisory committee under the chairmanship of Dr. J. F. Slavich will be ready for business the end of the week.

CROSSES CONTINENT TO REGAIN HER LOST BABY

"Kidnaped" Child Is Restored After a Long Chase

Six months of heartbreaking anxiety ended yesterday for Mrs. Anna Schneider of this city, widow of a young German lieutenant killed in Belgium at the beginning of the war when she took in her arms again the baby for whom the police have been scouring the country since last June.

Six months likewise of search for Mrs. Lulu Day, wanted by San Diego authorities on a charge of having stolen \$2500 worth of jewels from residents of that city, are ended and the woman accused by Mrs. Schneider of having kidnaped her child has been extradited from North Dakota to the Southern California town. It was in Jamestown, N. D., where the young mother recovered her lost little one.

This concludes one of the strangest apparent kidnaping cases of some time in this county, and also brings to a happy ending one of a series of sad episodes in the life of the young German widow.

WIDOWED AND PENITENT.

Left without funds by her husband's death before the birth of her child, Mrs. Schneider was compelled to seek out some method of earning a living for herself and the little one. In San Diego, according to her pathetic story, she became acquainted with Mrs. Lulu Day, to whom she said help predicament. A strong friendship grew up between the two women and when the baby was born it was named after Mrs. Day.

In the spring of last year Mrs. Richard S. Rogers of San Diego, who employed Mrs. Day as a housekeeper, and Mrs. Schneider as cook, was robbed of several thousands of dollars' worth of diamonds. About that time Mrs. Day suggested to Mrs. Schneider that they would find work easier if they came to the bay region, so the two women left San Diego and made their home together in Oakland for several months. Before Mrs. Day disappeared from the state Mrs. Schneider claimed to have a jewel similar to those missed by the Rogers in Mrs. Day's possession.

When Mrs. Schneider became the housekeeper of an artist, Mrs. Day, Mrs. Day, who had been there one day, according to the witness, suggested that she take the baby for a few days and so relieve Mrs. Schneider. Mrs. Schneider complied, and Mrs. Day took the six-month-old child with her on the train to San Jose. This was on May 27 of last year—the last time when yesterday that the mother saw her baby.

TRACED HER CHILD.
After days elapsed and no word came

EARTHQUAKE IN NEVADA BEAT 1906

U. C. Seismograph Bulletin Has Record of Tremor in 1915 Greater in Energy and Area Than Historic Shakeup

Delicate Instruments Register Quakes Thousands of Miles Away; Shake in Yezzo Isle, of Japanese Group, Is Detected

TRIBUNE BUREAU, 2015 SHATTUCK AVE., BERKELEY, Jan. 5.—That the energy of the Nevada earthquake of October 3, 1915, was probably greater than that involved in the San Francisco earthquake of 1906, and the area affected considerably greater, is declared by P. F. Davis, instructor in mineralogy and geology in the University of California, in the annual seismographic bulletin recording the registration of earthquakes at Berkeley and at the Lick Observatory, just issued by the University of California publications.

This Nevada earthquake, there was a downward slipping of one block of the earth's crust against another, with a vertical displacement of fifteen feet at the maximum. This vertical slip could be followed on the surface across country for a distance of between twenty and thirty miles. In the San Francisco earthquake, the similar displacement of crust blocks was mostly horizontal, and covered only one foot at the maximum, with surface evidences of break for 150 miles. The Nevada earthquake, originating in Pleasant Valley, was registered throughout the western United States. The instruments at the Lick Observatory, continued to record these earth-waves from a distance of 1,000 miles.

So delicate are the earthquake-recording instruments at the University of California, that one of the sixty-one earthquakes recorded during the half-year ending March 31, 1916, was detected on the Hawaiian Islands, and one on the island of Yezzo, washed by the Sea of Okhotsk.

The earthquake of unusual interest recorded was that of October 8, 1915, which began on the east side of the ground and spread westward, and was followed by a series of smaller shocks, the largest of which was a magnitude of 6.5.

The earthquake of unusual interest recorded was that of October 8, 1915, which began on the east side of the ground and spread westward, and was followed by a series of smaller shocks, the largest of which was a magnitude of 6.5.

"Fiz Institute" to Be Opened in Fresno

BERKELEY, Jan. 5.—To aid in developing the vast possibilities of the fiz industry in California, the University of California has decided to open a "Fiz Institute" at Fresno high school on Friday and Saturday.

Eighty Women: Six Pair of Silk Hose?

NEW YORK, Jan. 5.—There'll be trouble on Piletop Lane. The first pair of silk stockings to be worn in the world today are only six pair of silk hose. There are eighty women on the island.

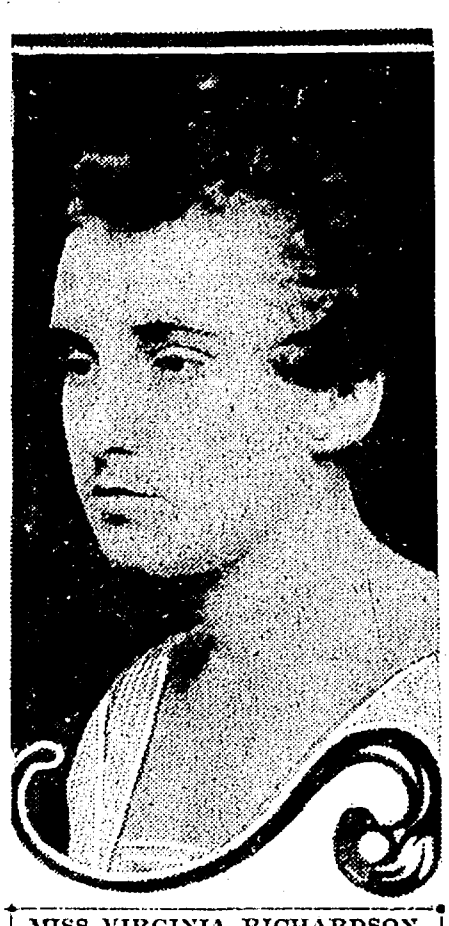

WHAT IS AUTO-INTOXICATION?

The best and clearest definition is "Auto-intoxication" by compounds produced internally by oneself. The doctors agree that the vast majority of all the illness that is brought on by accumulated waste in the lower bowels.

HOW TO GET RELIEF FROM CATARRH

If you have catarrh, catarrhal discharges, or head noises go to your drug list and get 1 oz. of "Fiz" (a reliable strength), take this home and mix it with 1-2 pint of hot water and 1 oz. of granulated sugar. Take 1 teaspoonful 4 times a day.

Atholian Club Dansant to Be Large Affair

MISS VIRGINIA RICHARDSON.

Berkeley Will Be the Scene of Entertainment Tomorrow.

The next gathering of the Atholian Club will be held in Berkeley tomorrow night, at which time one of the organization's seasonal dansants will be held. Miss Virginia Richardson is one of the popular members of the younger Oakland and Berkeley smart set, which is active in the success of these affairs and will be prominent in the next function.

IRVING WILL BE CANDIDATE AGAIN

Berkeley Mayor Once More to Enter Fight for Office.

TRIBUNE BUREAU, 2015 SHATTUCK AVE., BERKELEY, Jan. 5.—Mayor Samuel C. Irving definitely announced this afternoon that he would be a candidate to succeed himself in the mayoralty chair, the city election will be held in April, when a mayor, two city commissioners and two members of the Board of Education are to be chosen. Mayor Irving stated today that he had delayed his decision because of the considerations of his private business which greatly needed, he declared, his attention. He added that he would make his decision after his inauguration as chief of the city.

Citizens Review Work of Charter Framers

RICHMOND, Jan. 5.—At the meeting of the Board of Freeholders last night the charter which was gone over and published in the ordinance in the official newspaper. The freeholders had intended to complete the framing of the charter and sign it, but it was necessary to adjourn to Saturday night to complete the work.

NOMINATING COMMITTEE NAMED

RICHMOND, Jan. 5.—New directors for the Chamber of Commerce will be nominated by a nominating committee of the present board of directors to be voted upon at the yearly election of the chamber to be held on the first Friday of March. The board at present consists of nine members.

CLUB TO OPEN YEAR

RICHMOND, Jan. 5.—The Richmond Club will resume its Monday afternoon meetings Monday at the club's building, 1100 Broadway.

DIAMOND BROOCH LOST

SAN FRANCISCO, Jan. 5.—Mrs. George Holdren, of 1885 Clay street, reported to the police this morning that she had lost or had stolen from her a \$100 diamond brooch while attending a function at a downtown hotel.

METZ HOME ROBBED

RICHMOND, Jan. 5.—A burglar, entering through a window, burglarized the home of Miss Anna Metz, 1525 Broadway, last night while Mrs. Metz was out. She discovered on a return that \$2 in coin had been taken, but no clue of the burglar was found.

LOTTERY STORY IS TOLD BY YOUTH

Police Put on Trail to Verify Story; Judge to Order Probe.

Following a hearing held today in the juvenile court by Judge William H. Donahue, District Attorney W. B. Smith and City Detective Kyle and Gannaw, visited a Chinese butcher shop at 492 Ninth street, where was discovered a rear room in which Peter Peacock, a 12-year-old boy, had told Judge Donahue that he had been in the habit of purchasing lottery tickets.

Aged Man Supposed Penniless, Was Rich

NEW YORK, Jan. 5.—At the funeral here of Darwin De Wolf, 78 years old, who died in a hospital from burns he suffered while experimenting with a combination kerosene and water burner he was trying to perfect, it became known that while he made his home in a piano packing box in a factory yard, he had \$50,000 deposited in a Chase National bank and owned 27,000 shares in valuable Colorado mining properties.

Prominent Speakers Recommend Charter

ALAMEDA, Jan. 5.—The largest new charter rally in the West had its date was set today in the city of Alameda. Improvement Club on Webster street. Former Mayor Frank Otis, E. C. Brown, W. J. Locke and other members of the Board of Freeholders were present and were among the speakers.

Early Morning Storm Arrives in Oakland

Another storm visited California this morning, causing rain in the bay cities at 5 o'clock. The disturbance moved very rapidly southward. The entire state is expected to receive rain within the next 24 hours. The precipitation in Oakland and San Francisco for the first three hours of the morning was very heavy.

New Steel Freighter Will Glide From Ways

ALAMEDA, Jan. 5.—A 10,000-ton freighter, the second big craft in a few weeks to be launched from the Union Iron Works, will glide from the ways next Tuesday. The launching of the ship is a public affair. Details for the event are now being completed. The name of the new vessel has not yet been announced.

Stork Leads Reaper; Alameda Is Growing

ALAMEDA, Jan. 5.—The births in Alameda in 1916 exceeded the deaths by 123. There were 401 births and 278 deaths. Deaths and births for December were 39 and 123, respectively. There were a dozen boy babies and eleven girl babies born last month.

Law Students Honor Memory of Jurist

BERKELEY, Jan. 5.—In commemoration of the hundredth anniversary of the birth of California's greatest jurist, Stephen J. Field, the law students of the University of California School of Jurisprudence have issued a "Stephen J. Field Centenary" program.

'TIZ' FOR TIRED AND SORE FEET

Use "Tiz" for Puffed-Up, Burning, Aching, Calloused Feet and Corns.

Why do I limp around with aching, puffed-up feet—feet so tired, chafed, sore and swollen you can hardly get your shoes on or off? Why don't you get a 25-cent box of "Tiz" from the drug store now and gladden your tortured feet?

SHOWER FIRE LOSS SHOWS IN REPORT

Berkeley Chief Issues Account of Work of Past Year.

TRIBUNE BUREAU, 2015 SHATTUCK AVE., BERKELEY, Jan. 5.—Small total and individual loss from fires in this city during the year just ended is noted in the report for the year made by Fire Chief G. Sydney Ross. There were 442 alarms during the year, involving property worth \$2,526,360, the loss in which was \$42,150. The loss per alarm was \$95.35, which is considerably below the general average in the country according to the National Board of Fire Underwriters.

BERKELEY SCHOOL DIRECTOR IS ILL

Mrs. Elvina S. Beals Hurried to Hospital for Operation.

TRIBUNE BUREAU, 2015 SHATTUCK AVE., BERKELEY, Jan. 5.—Mrs. Elvina S. Beals, mother of the board of education, has suffered a nervous collapse and was removed today to St. Francis hospital in San Francisco where she underwent an operation this afternoon. Reports from the hospital were to the effect that her condition was serious. Besides serving as a member of the board of education Mrs. Beals has been one of the most active members of the city Cost of Living committee and has served in various capacities for the Berkeley Socialist league. She has also been on numerous occasions recently to speak before mothers' clubs and other organizations.

Professor Stephens, Ill, Is Improving

BERKELEY, Jan. 5.—Some improvement has been noted in the condition of Professor Stephens, who is recovering from a severe illness. He is expected to be discharged from the hospital in a few days.

Burglars Steal From Dynamite Magazine

RICHMOND, Jan. 5.—Burglars broke into the powder magazine of the San Pablo quarries, stealing a quantity of dynamite and other explosives. The police are searching for the thieves.

PLANNING INDOOR FETE

RICHMOND, Jan. 5.—An indoor fete will be given by the Second California Infantry, as guest of honor is now being planned by members of the Y. M. C. A. and the Y. W. C. A.

JOLLY FOUR OPENS SEASON

RICHMOND, Jan. 5.—The Jolly Four will begin the 1917 season tomorrow evening in Moore Hall by giving a variety of their happy songs.

PLAN THEATER PARTY

RICHMOND, Jan. 5.—The second annual theater party of the Alameda Amateurs, who later moved to a ranch in Napa county, have taken a house on Euclid avenue in Oakland and will make their headquarters in the future in the east side metropolis.

ALAMEDA PERSONALS

ALAMEDA, Jan. 5.—Miss Elizabeth Meyer, former Alameda girl now living in Oakland, has announced her engagement to Bill Byron Whitney of San Francisco. The bride is the daughter of Mr. and Mrs. Emil Meyer. Mrs. W. H. Hurlbert entertained this week at her home on Antioch avenue in honor of Miss Meyer, as did Miss Emma Meyer at her home in the West End. Mrs. S. G. Robinson, who is a fan of the imported trees and plants in San Francisco, being a specialist on tree and plant life.

Prominent Students Will Take Part in Spectacle

MISS MAUDE MEAGHER, WHO WILL TAKE A PROMINENT PART IN UNIVERSITY OF CALIFORNIA EXTRAVAGANZA—McCallagh.

Cast to Be Chosen at U. C. for 1917 Extravaganza; Larger Than Ever

BERKELEY, Jan. 5.—Interest on the University of California campus is centered in the choosing of the cast for the 1917 extravaganza. A half-dozen of the campus favorites are said to be in the race for the leading female role, and each of them has shown extraordinary ability during the past three years.

BERKELEY BANK IS SAFE: ELSTON

Congressman Says That Board Decision Is Final; Expects No Change.

TRIBUNE BUREAU, 2015 SHATTUCK AVE., BERKELEY, Jan. 5.—Assurances for Berkeley that this city will retain the Farm Loan Bank whatever efforts to wrest it away is made by Sacramento or other cities is offered as a result of a new appeal to the California Legislature. The following telegram from Congressman J. A. Elston of this city. The following telegram from Congressman J. A. Elston of this city.

No Appointees Yet for Job in Council

ALAMEDA, Jan. 5.—Mayor F. H. Bartlett said today that he had not yet decided on any appointees for the vacant positions in the Fourth Ward. The first vacancy, caused by the resignation of Councilman E. P. Bullock, which was filled by the appointment of James Fowler served through a part of one council meeting and then resigned.

CALOMEL BAD FOR THE LIVER

Dose of Nasty Calomel Makes You Sick and You Lose a Day's Work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with your bile it crashes into it causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your drugstore and get a 50-cent bottle of Dodson's Liver Tonic, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you out better and quicker than nasty calomel and without making you sick, you just go back and get your money.

NOY MAY BE CANDIDATE FOR MAYOR

Former Alameda Executive Is Urged by Friends to Go Into Race; New Charter Issue Is Now at the Critical Period

City Officials Assured Jobs of Efficient Will Be Safe Under New Instrument if Passed by Voters at the Next Election

ALAMEDA, Jan. 5.—That W. H. Noy will be a candidate for mayor of Alameda next spring, if the new charter fails to carry, or a candidate for a councilship if the charter goes through next Tuesday, is being persistently reported. Noy has so far declined to make an out and out announcement of his intention. It is being reported that Noy will take the field again, either as a minority candidate or as a council candidate. The mayor is now the nominee of the council, has a majority of his appointees on the board of education and expects to have the naming of the new superintendent of streets. While the carrying of the new charter next week will make a different study to figure out in it will in no wise drive from the field anyone at present intending to run for high office. The new charter would merely force majority candidates to become council candidates and would not have the effect of determining the mayoralty.

The preferential system of voting will be in effect if the charter carries, first, second and third choices being provided for. With the determining of the final fate of the charter but a few days away, the city hall is growing acute. The charter is quite pronounced, present office holders and other municipal employees are being urged to support the new instrument. Supporters of the charter declare that no present employee of the city has cause to fear loss of place or other disturbing action as long as their duties are efficiently attended to. The charter backers also declare that the new charter will take all administrative departments out of politics, will tie the political hands of the council and will go away with a large percentage of the bitter and protracted council and mayor fights which have chiefly been over matters of political patronage.

LAWTON FUNERAL HELD

ALAMEDA, Jan. 5.—Mrs. Anna F. Lawton, wife of William Lawton, died yesterday at her home, 1551 Versailles avenue. Mrs. Lawton was a native of Hayward and had many friends in the different bay cities. A funeral service was held at 2 o'clock this afternoon at Alameda, undertaking establishment. The interment was in Evergreen Cemetery.

HEADS SHIFT IN UNION IRON LOCAL PLANT

Manager Christy to Leave Alameda Position to Go to San Pedro; Works There Said to Be New Schwab Property

High-Priced Men Are Brought From East to Be Moved to Other Appoint; Harvey Warton Is Sent to Seattle

ALAMEDA, Jan. 5.—Important changes in the personnel of the Alameda plant of the Union Iron Works are being made and numerous high-priced men brought from the east, are being shifted to other ship building plants in the country. The chief change and the one that will interest Alameda the most is the transferring of Manager J. R. Christy from the Alameda plant to San Pedro. Christy will close the ship-building program of the old United Engineering Works, of which he was manager and heavy stockholder, with the launching of a 10,000-ton freighter next Wednesday. It is current report that the San Pedro plant is also a Schwab property, though there is another report that Christy and associates are to embark in an independent ship-building enterprise in the south.

CALL CHURCH JOBS.
At the time the Union Iron Works was sending representatives before the Alameda city council in connection with the leasing of the city's water front land, Christy, as the chief representative, referred several times to the fact that San Pedro was being built by the Union Iron Works plant and had also made him a tender to transfer the old United Engineering concern to the southern harbor. When the Union Iron Works took over the United Engineering business it took over the contracts for three big freighters, the *Talbot*, launched a few weeks ago, and the unnamed vessel to be launched next week. The latter contracts were considered as "Christy" jobs and it was deemed advisable to retain Christy here until the two ships were

Mabrey Quits Hayward Public Schools "Town Is Standing Still," He Says Resignation Follows Old Differences

HAYWARD, Jan. 5.—Giving as his reason that Hayward is "standing still" educationally, and that it ought to have educators who are willing also to merely mark time, D. N. Mabrey, principal of the grammar school, for long the center of a bitter school fight, today handed in his resignation. His resignation, which will take effect June 30 of this year, will be considered at a special meeting of the school board to be called by F. I. Lemos, clerk of the board.

Following the announcement of Mabrey's decision, Frederick J. Russell, a school trustee, who charged that the school principal mismanaged affairs at the school and who admitted he was elected to the board with the main purpose of getting rid of Mabrey, declared that the resignation was merely for campaign purposes and that Mabrey would try to get back his position. Trustee Russell said he was further of opinion that Mabrey's resignation saved him from being "kicked out" later.

Mrs. L. R. Rosenberg, a school trustee, commenting upon Mabrey's resignation, said she fully agreed with him that Hayward educationally was at a standstill and blamed the taxpayers for that alleged condition.

You can't blame a man for resigning when his work is not appreciated, can you? asked Mrs. Rosenberg.

According to Trustee F. I. Lemos, Mabrey had intimated his intention

completed and new men could familiarize themselves with the Alameda plant and the shipyard routine.

Another ship-building change made recently was the sending of Harvey Warton to the northwest to take charge of the Ames Ship-Building Company at Seattle, another Schwab property. Martin Warton, a brother of Harvey Warton, is also to be sent to the northwest to take charge of the Ames Ship-Building Company at Seattle, another Schwab property. Martin Warton, a brother of Harvey Warton, is also to be sent to the northwest to take charge of the Ames Ship-Building Company at Seattle, another Schwab property.

An interesting rumor, pointing to the establishment of some of the men sent to Seattle, that they were to go to Seattle first and later to Honolulu to work on a shipyard plant in Hawaii.

Christy, the present manager of the Alameda plant, is a well known Alameda and a former city electrician.

His family are prominent in the social life in the bay cities and there will be general regret in numerous circles if the family moves south.

PLANS COMPLETE FOR BIG DANCE

Auditorium to Be Scene of Big Affair in Honor of National Guardsmen.

Plans for the grand ball which is to be tendered by the citizens of Oakland to the members of the National Guard as an honorary tribute to their loyal service were completed this noon at a meeting of the executive committee and the military committee of the Chamber of Commerce in the Hotel Oakland. The final arrangements as outlined and assigned to the various committees in charge, indicate that the affair, which will take place in the Municipal Auditorium on the evening of Wednesday, January 11, will be one of the most brilliant social functions of the year. Many prominent society women are to act as patronesses of the ball and the date is being reserved in the social calendar.

The ball, which is to be free to the public and to which every citizen is invited, is to be the outward expression of the appreciation which the city collectively feels toward the boys in khaki who answered their country's call last summer and spent many months in military duty along the Mexican border as guardians of the country's peace. The city council has donated the use of the auditorium and the services of the Municipal Band, and the commitment of honor to the soldiers will be a municipal one both in form and essence.

Managing Director Joseph B. Caine of the Chamber of Commerce is chairman of the executive committee which is handling the details of the important social event. With him are serving as chairman of sub-committees: Commissioner Harry S. Anderson, reception; Captain H. Herman, decorations; Major Ralph J. Faneuf, floor; Henry Vogt,

'Twas Some Feed! Splendid! VOLLMER DETAILS What Can They Do About It? CRIME STIGMATA

Sacra poison! Nom de capout l'ar-bien! It was some terrible tragedy! N'est-ce pas? Zee dinnair—she is ordo pour le Monsieur Scott and his party. Zee kitchen she cook, zee salad she is made, zee tout ensemble he is fine! And zhen—Poot! Lak zat—she blow up! Behol! Ze wrong day!

Who made the mistake? Nobody is willing to shoulder the responsibility, but it lies between the Hotel Oakland and the Moore & Scott Company. Tomorrow it will be forgotten, but today, it is real tragedy below stairs, where the culinary staff of the hotel hold forth.

It all happened this way: Henry T. Scott and party of about thirty friends and business associates from San Francisco are to attend the launching of the Norwegian steamer Thorids. Such events, it has been found, produce good healthy appetites on the part of spectators. So a representative of Moore & Scott Company made arrangements with the Hotel Oakland for a noon dinner in the main dining room. Here is where the trouble started.

W. G. Glidden, local manager of the company, says he ordered the dinner for tomorrow. Walter Bounseval, who writes things in a book, says the luncheon was ordered for today. He notified the head steward, and down in the place where aromas are manufactured, things began to happen.

"Zee Monsieur Scott is one gran' eatar—zee feed she shall be classiqui!" So the word went down the line from the head chef. Crabs were mayonnaised, olives polished, chickens roasted to a turn and everything was in readiness for a very special "parfait" dinner, served as only the full chef-power of the cuisine could serve it. And then!

At quarter twelve, the hotel management learned that the luncheon

would not take place until tomorrow and there would be nobody at the hotel to tick away the epicurean repast which had been prepared.

From the four quarters of the kitchen a wall went up.

"For noosing—al for noosing, ze work she is done—now nobody is coming. Tout est perdu! All is lost! Le repas manifique—she go into zee ashcan. Oh, Ciel! Quelle chlen du metier! What a dog of a business!"

Whether or not the indignant chef or his assistants, now steeped in silent melancholy, can be induced to do it all over again tomorrow, is worrying the hotel management. The head chef is inconsolable.

"I tink maybe I join the army," he said.

"Gun Toters" Will Go to Jail, Says Judge

LOS ANGELES, Jan. 5.—Police Judge Chesbro today started to add the police in lessening holdups here by giving a "gun-toter" 180 days in jail, sentencing a man carrying a "blackjack" to a similar term and sending a youth carrying a revolver to a reformatory. He says:

In the future every man before me on a charge of carrying concealed weapons without a permit will get a sentence that will make him sit up and take notice. There is constant temptation for a gun-packing person, man or boy, and I believe many holdups are committed in a spirit of bravado by some one craving excitement.

Chief Tells Students Meaning of Receding Jaw and a Weak Chin.

That the receding jaw and weak chin characterize at least 50 per cent of criminal degenerates, was the statement of Chief of Police August Vollmer of Berkeley, in a lecture delivered today to the students of the Oakland College of Medicine. Chief Vollmer was discussing the effects of toxic poisons, caused by infectious diseases and the outward manifestations of criminal degeneracy. He said:

In criminal degenerates the degeneracy is manifested in three ways: morally, mentally and physically. Sometimes all three manifestations are present, sometimes two and sometimes only one. In dealing with this class of criminals we always look for the physical manifestations first, being outward and most apparent. The most common physical sign is the receding jaw and very weak chin, and it is safe to say that at least fifty per cent of criminal degenerates show this characteristic.

Physical manifestations are not sufficient to determine deep-seated degeneracy. The mental condition, rather than physical stigma, must be the determining factor.

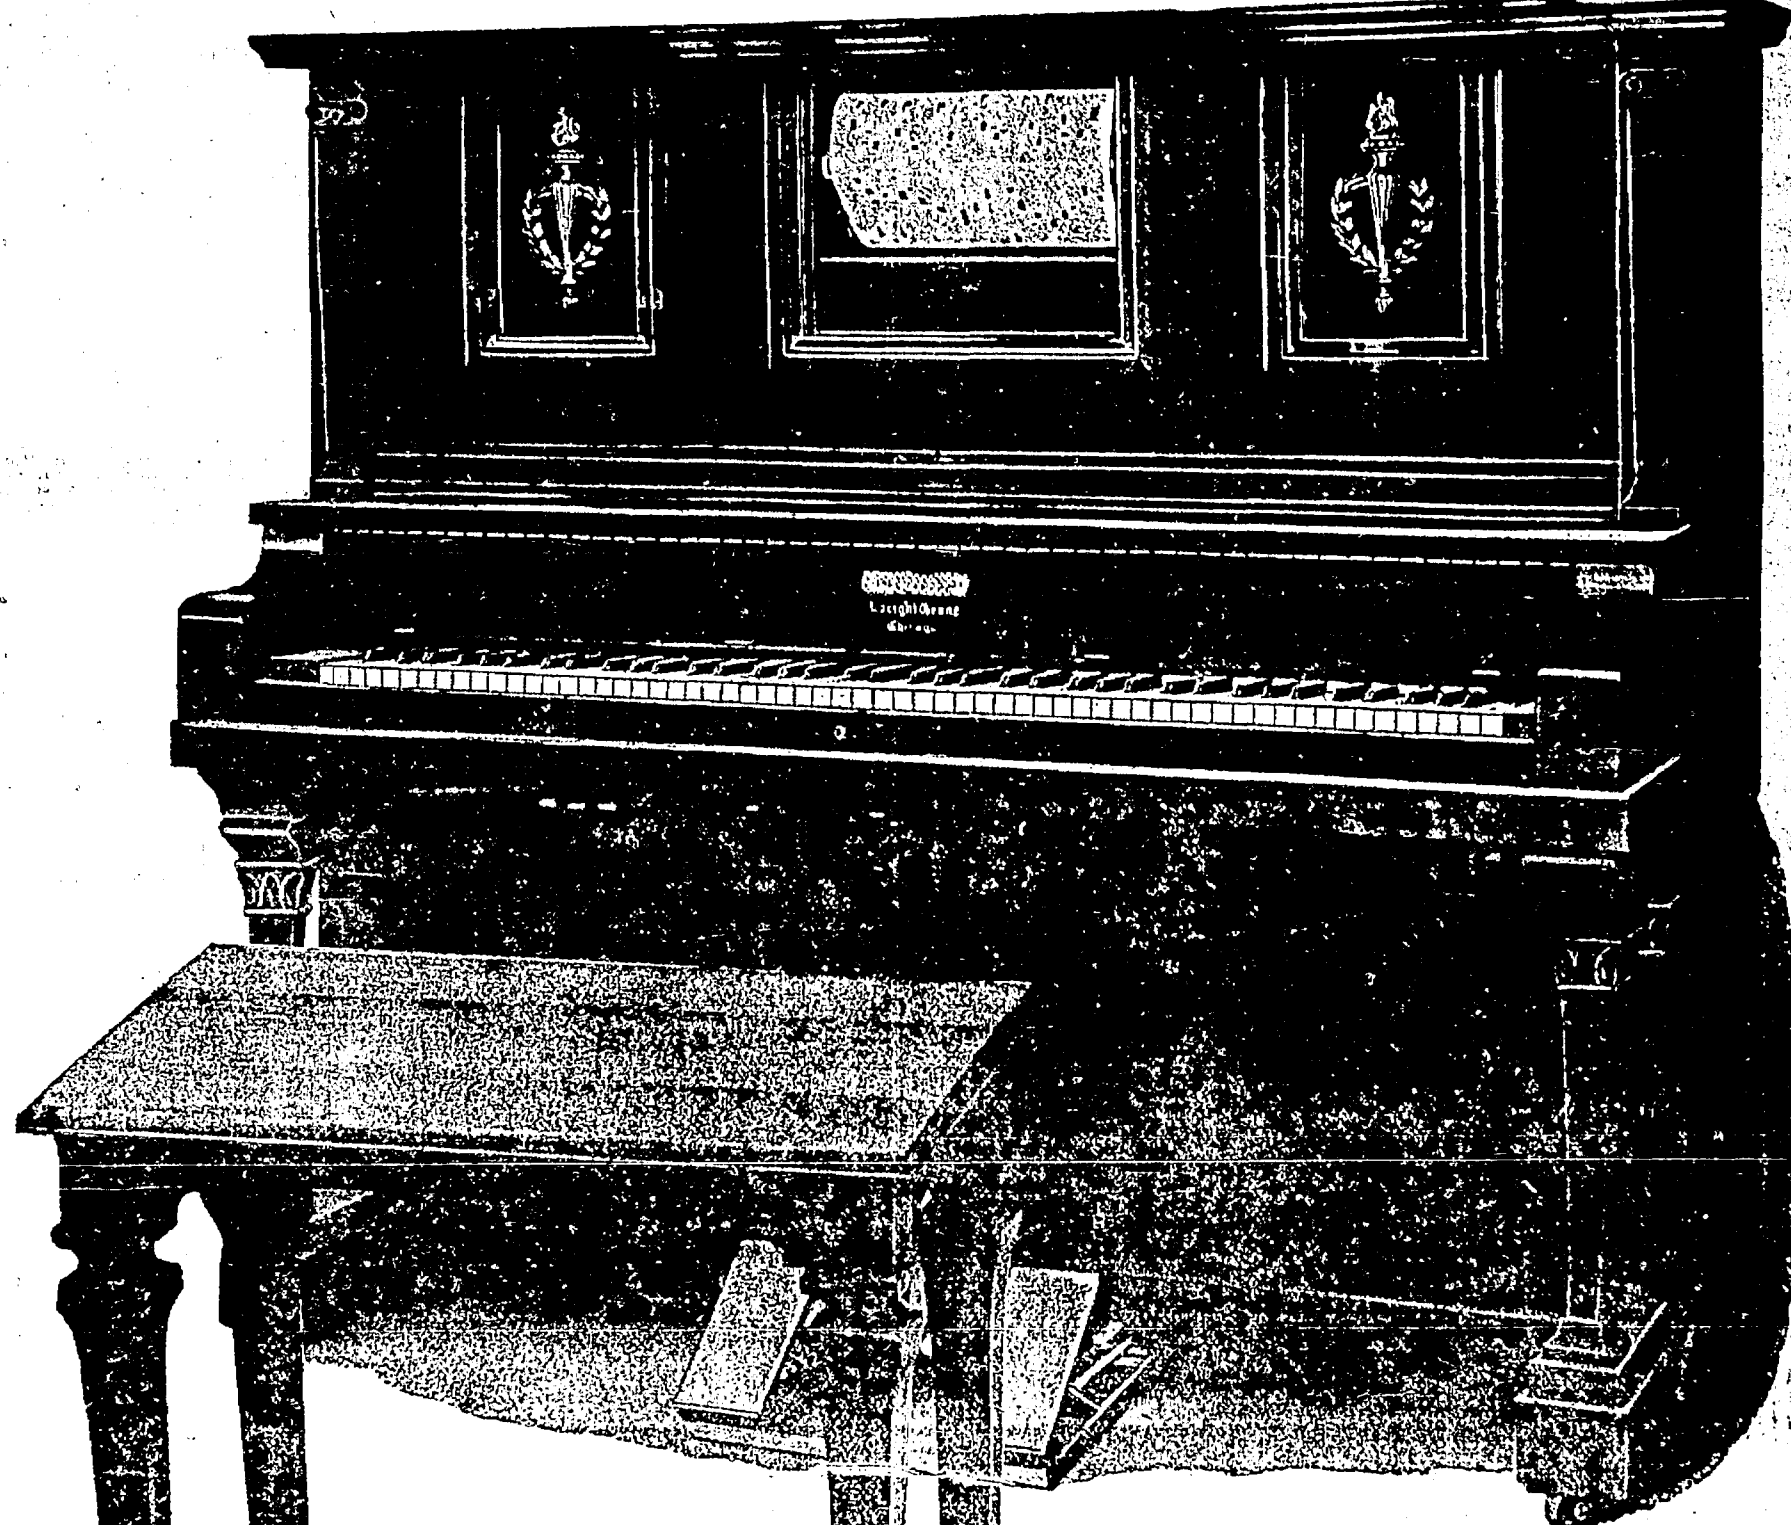

It is only after the most careful physical and mental examination that whether or not the individual is criminally insane, feeble-minded, or a moral degenerate can be determined.

REBEKAHS PLAN INSTALLATION
RICHMOND, Jan. 5.—The Richmond Rebekahs at their regular meeting in W. O. W. Hall last evening planned to hold joint installation with the Zenby Rebekah Lodge of Point Richmond. The interest will next Saturday evening

An Offer Most Extraordinary

Two Beautiful Player Pianos For Only \$215.00 Each

Factory wires Eilers to sell quick two late models player pianos, sent here as samples for dealers to see.

Two beautiful player pianos—both mottled walnut—one is a little larger size than the other—were shipped here sometime ago by the manufacturer as samples for dealers to see. They were finally turned over to us, and though they have been in storage for several months, each instrument is bright and new in every way. Elegantly finished, beautiful tone.

The factory wires "Sell them at once"—so we'll take \$215 each, which is less than 33 cents on the dollar.

In accordance with instructions by wire from the factory we shall sell them at once—hence this offer—\$215 each, which includes a nice bench and \$20 worth of latest 88-note music rolls.

This most exceptional offer can never come again. The instruments go on sale Saturday morning at 10 o'clock (not before).

Will Get Back His Letters; to Pay \$2,000

SAN FRANCISCO, Jan. 5.—Edward R. Stock, traveling salesman for J. J. Folger & Co., stands ready to pay \$2,000 for the return of the love letters figuring in the divorce action brought by his wife, Carle E. Stock. On the granting of the decree to Mrs. Stock by Superior Judge Graham, the defendant was ordered to pay \$10 a month alimony and \$2,000 in a lump sum. Yesterday was fixed for the handing over of the money. Stock refused until the letters written by several of the twelve affiliates brought forward by the wife were returned to him. Judge Graham listened to the protest on both sides this morning and then decided that public policy demanded that Stock be given the amorous epistles. They are to be placed in a sealed envelope and turned over to the court, who will hand them to Stock.

Five Children Plead for Accused Father

SAN FRANCISCO, Jan. 5.—Five little pickaninnies brought forward by their father, W. S. Thomson, as his sole counsel before Federal Judge Maurice Doelling today, smiled up at the court, pleading so eloquently that the defendant was released with the minimum penalty. Thomson is the negro steward on the steamer *Alliance* accused of attempting to smuggle five tons of opium into the port. He was asked if he had counsel. He immediately produced his five children, ranging in ages from 2 to 10 years, and asserted that it was his desire to give them Christmas cheer that caused him to turn to temptation placed in his way and try to smuggle through the drug. The court fined him \$50 and gave him until Tuesday to raise it.

To Create Farm for First Time Offenders

SAN DIEGO, Jan. 5.—Bills are to be introduced during the coming Legislature, members of the San Diego delegation announced today, providing for the establishment of a farm institution for first offenders, and one for drug users and habitual drunkards. The State already owns a tract of land at Napa, intended for the "first offender" institution, which is designed to prevent the making of desperate criminals by associating first offenders with long-termers at San Quentin Prison. The farm for drug users will be located elsewhere. Both will be self-supporting.

Developments Are Promised in Fraud Case

WASHINGTON, Jan. 5.—"Important developments" are expected shortly by the department of justice in the presidential election fraud probe. It, Indiana and Illinois, it was announced today. Frank C. Bailey, Indianapolis, special investigator, returned to the West today to continue his probe. Officials refused to explain what the "important developments" might be.

Eight Years Taken to Send Postcard

BOSTON, Jan. 5.—It took eight years for Harry Brickley's postcard to get by mail from one part of Boston to his father on the other side of town. The elder Brickley said he was glad to hear from the boy.

WANTS MONEY BACK.

Alleging that farm land in Nevada purchased on the representation of A. L. and Agnes Fox for \$1600, has little of the value he was advised it had when he purchased it. O. G. Diessner has filed suit to recover his money. He declares that he found no spring on the fifty-acre place, no place in which to live, no hay and no farm equipment, all of which had been promised him.

FACE FASHIONS THIS YEAR

Demand That the Complexion Be Made Clear and Clean and Nothing Aids the Skin Like Stuart's Calcium Wafers.

All styles of dress this year make it necessary to every woman remove pimples, blotches, etc. This condition is brought about by reason of the fact that the colors used and style of hair dress throw the face in a position of prominence that will make pimples, etc., very hideous if they exist.

"Take My Advice and Use Stuart's Calcium Wafers if You Want a Pretty Skin."

The impurities arising in the body are thrown off in four ways, through the pores of the skin, the lungs, the kidneys and bowels. Stuart's Calcium Wafers will make the blood clean. They will throw open the pores and in only a short time you will find the entire system free from marks of blood impurity. The fresh, red, rosy hue of the blood flowing freely close to the skin will give you the complexion you desire. Obtain a box from any druggist anywhere. Price, 50 cents.

Free Trial Coupon

Works Protests Wilson's Power

Fears Decadence of U. S. Government

WASHINGTON, D. C., Jan. 5.—Senator Works of California in his senatorial vaudeville today assailed the "tendency toward centralized, unchecked and unlimited power" in the President of the United States, and attacked the growing profligacy of wealth as indications of decadence of the American government. He said:

The greatest danger now confronting the nation is the unwarranted and unconstitutional usurpation of power by the President, amounting practically to a dictatorship and the complete surrender of its powers and functions and abandonment of its duties and obligations by the Congress of the United States.

The tendency has grown rapidly worse and more offensive in the last four years. Never has Congress been so submissive or so subservient to a power outside itself. Never in all history have we come so near to a despotic government.

Senator Works also asserted that the nation now was feeling the evil effects of its growing wealth and advocated laws to compel idle rich to work for the state if not for themselves.

'KIDNAPED' CHILD IS BROUGHT HERE

Widow of German Soldier Crosses Continent to Regain Babe.

(Continued From Page 13)

The young woman tried to trace her child vainly and finally appealed to the police. In June she made a vain trip to El Paso, Mrs. Day's former home. Twice since then she was refused warrants against Mrs. Day on a kidnapping charge, but the woman was finally arrested a month ago in Jamestown on a charge of theft.

While able to extradite Mrs. Day to San Diego, the penal authorities of Jamestown were not able to extradite the baby, and the child had to be cared for there until the mother could make the journey herself. Means for the trip were supplied through the efforts of Mrs. C. A. Fife, wife of a member of the Oakland police force, who became interested in Mrs. Schneider's case. The baby was given back to the sorely tried mother by George Day, husband of the woman who took the child out of the state.

"NEW" SON WELCOMED.

Louis Lowe, a wealthy Chinese interpreter, of 901 Clay street, is today the proud and smiling possessor of a new son. But what makes the advent of his son different from the usual arrival is that Lowe's son is 16 years old and he saw him for the first time yesterday. The lad, whose name is Lowe Afun Yung, arrived from China yesterday, and his coming was made the occasion of as much feasting among the upper crust of Chinatown as if he were the prodigal son himself.

STEPHENS, IN NEW OFFICE, BEGINS WORK

Lieutenant - Governor Moves Into Quarters at Capitol; Starts Preparing Committee Lists to Be Announced Later

Declares He Will Confine His Energy to Continuing Policy of Johnson and Serving All the Citizens of California

SACRAMENTO, Jan. 5.—Lieutenant-Governor William D. Stephens moved into his offices in the Capitol today and commenced preparing lists of committee appointments he will be called upon to make next week, when the Legislature convenes.

The Lieutenant-Governor, who will succeed Governor Hiram W. Johnson as chief executive of California when the Governor resigns to take up his duties as United States Senator, today declared that his principal policy will be to do whatever he can to continue the Johnson policies in the state. He said:

Of course, I look with favor on Governor Johnson's policies and will do whatever I can to continue his work and to serve the people of California.

Lieutenant-Governor Stephens is not accompanied by the members of his family. He stated that Mrs. Stephens will arrive later, but that no definite time has been arranged for her coming.

FRIEDLANDER FREED.

A. Friedlander, the San Francisco attorney, who was arrested on a bench warrant because of his failure to obey a writ of court, was yesterday released from his bail bond by Judge W. S. Wells following his explanation that he was detained in San Francisco the afternoon he was due here, by a similar order of court there. The heirs of the late Margaret A. Fischer are seeking to discover certain jewelry said to be in the possession of Friedlander.

ELECTRICAL INSPECTOR.

R. L. Eltringham, electric safety engineer of the state industrial accident commission, will give a talk to the electrical contractors and inspectors of Oakland at Electrical Workers' Hall, 470 1/2 Twelfth street, tomorrow at 1:30 p. m. Eltringham will explain the new electrical utilization safety orders which were made effective January 1, 1917, by the industrial accident commission.

Frank Esola Wins Pardon From State

SACRAMENTO, Jan. 5.—Frank W. Esola, former member of the San Francisco police force, convicted in 1913 of grand larceny and sentenced to a five-year term in Folsom prison, was pardoned yesterday by Governor Johnson. He had been on parole for more than a year. The governor also pardoned N. F. Sterling of Mariposa county, sentenced to twelve years for passing a fictitious check, and Edward C. Miles of San Francisco, sentenced to five years for grand larceny. All three men were restored to full citizenship.

Grand Army Veteran Summoned by Death

Joseph William Keenan, a member of Lyon Post No. 8, G. A. R., died yesterday at his late residence on Twenty-fifth street in this city. Keenan was born in England in 1840, and landed in New York City when very young. After serving in the Civil War, he settled in Baxter Springs, Kansas, later coming to California and locating in Placerville, thence to this city, where he resided for the last twenty-five years.

Surviving him, besides his widow, Mrs. Annie Lavina Keenan, are three children, Mrs. Walter S. Fry, Clair V. and Josephine W. Keenan.

Monkey Is Hero of Fire at Museum

PORTLAND, Ore., Jan. 5.—Jo Jo, a monkey at the Warhington Park zoo here, today is the hero of animal row at the park. For Jo Jo sounded an alarm when sparks from the zoo heating plant fell on the monkey cages and a fire threatened to destroy the building and inmates. Jo Jo screeched and tore at his cage until keepers came and caught the blaze in its incipientcy.

Funeral services will be held tomorrow at the chapel at 584 Thirteenth street, under the auspices of Lyon Post No. 8, G. A. R.

Letter Writer Will Face His Accuser

LOS ANGELES, Jan. 5.—Paul Kruger, arrested by federal authorities on charge of sending objectionable matter through the mail, waived removal and will be taken to San Francisco tonight to face trial and his accuser, Mrs. S. J. Serbo of Oakland, who received the letters.

According to evidence in possession of the postal authorities, Kruger's wife was employed by Mrs. Serbo, and the letters were written in an effort to have the woman discharged, as she would not comply with Kruger's pleas to return to him.

STOCKS AND BONDS

Comment on Union Bank Local Bank Dividends

A conservative estimate tends to show that the savings banks of Oakland district have paid out in dividends for the half year period ending December 31, approximately \$1,000,000, by no means an inconsiderable amount. Of this, the Oakland Bank of Savings with deposits of \$24,000,000, paid the largest amount, \$240,000, came the central savings bank with a deposit total of \$13,000,000, followed by the First Savings, with \$2,000,000, and four others. This is a marked increase over the interest figures of 1906, ten years preceding, when the entire sum paid was estimated at only \$350,000.

Commenting upon the fact that New York banks are at the highest record in history and that the loans of the \$7,500 banks and trust companies of the city are over \$2,000,000,000, in excess of the loans of three years ago, G. W. McGarr, president of the Oakland Bank and Metals National Bank of New York, said:

"The elements contributing to being about this phenomenal expansion have been abnormal and none of us can tell how long they will continue. The fact is that the business of the nation is a duty that has been imposed upon every banker and business man of the nation and there is no doubt that the future holds which one can clearly discern, and upon which one can count with confidence that the duty has become a trying and oftentimes a confusing one."

Thus we have, just now, the spectacle of our financial leaders considering means of stemming gold imports into the United States because of the danger of inflation, at the same time that they are discussing the likelihood of gold exports later on, because of the possibility of deflation. Gold added to the country's total supply in the past two years has been \$500,000,000, a sum far more than necessary to carry on the business of the country, with further additions to the supply through the payment for goods exported abroad, it can be seen how enormous a credit expansion is possible.

U. S. Steel Drops With Other Stocks Off One Point or More.

NEW YORK, Jan. 5.—Professional selling of the leaders and vulnerable specialties provoked further unsettlement in today's trading. Sales approximated 1,000,000 shares.

Rallies of 1 to 3 points in the final hour proved of short duration, prices receding again on renewed pressure.

NEW YORK, Jan. 5.—The stock market yielded to heavy selling pressure at the opening today, leaders selling down half to nearly two points. United States Steel opened at 30 1/2, off 1 1/2, and on sale of 10,000 shares.

Baldwin's leather was off 1/4 at 92. General Motors, Chrysler, American Smelting, Maxwell Motors, Industrial Alcohol, and other specialties, Republic Steel and Studebaker were all down a point or more.

The increasing professional nature of the early trading was indicated by the erratic price movement. Initial declines soon gave way to general recoveries and some of the gains were held in the afternoon. Material gains, notably in Reading, toward midday, more than retrieving its opening loss, but Bethlehem Steel fell 1/2, and the market closed lower.

Another severe reversal took place in the early afternoon. Steel making advanced 1/2, but the market fell 1/2, and for some of the more prominent specialties. Rallies also yielded with greater activity as prices fell.

CHICAGO WHEAT PIT

CHICAGO, Jan. 5.—Likelihood of new moves for a peace period and a dominating bearish influence today on the wheat market. The evident urgency of foreign export for supplies, and the desire to prevent a radical setback in prices. Opening prices, which ranged from 1 1/2 to 1 3/4, and closed at 1 1/2 to 1 3/4.

Another severe reversal took place in the early afternoon. Steel making advanced 1/2, but the market fell 1/2, and for some of the more prominent specialties. Rallies also yielded with greater activity as prices fell.

RAILROAD COMMISSION

Railroad Commissioner Harvey D. Loveland has under consideration the application of the Southern Pacific Company and the exchange of \$20,000,000 of the San Jose and Santa Clara County Railroad Company's first mortgage sinking fund bonds for the Southern Pacific Company's first mortgage sinking fund bonds of the San Jose and Santa Clara County Railroad Company.

The Railroad Commission has issued an order dissolving without prejudice the complaint of the Brunswick-Balke-Collender Company against the Southern Pacific Company, which has been filed in the Springs Valley Water Company, at the request of the complainant.

HIDES, WOOL, TALLOW

'EFFICIENCY CLUB' ROUTED BY KNIFE

Man Who Rented Hall Wanted to Preside; Riot Results.

PORTLAND, Ore., Jan. 5.—Disorder approaching the proportions of a small riot developed here last night at a meeting of the Forty-Five Efficiency Club, when E. L. McClure, who declared he had rented the hall, insisted on presiding and resisted election by drawing a knife and charging the crowd. A squad of police finally disarmed and ejected him.

The Forty-Five Efficiency Club, only recently organized, is an organization of men 45 years of age or older, whose purpose is to prevent middle-aged men in business and industrial lines from being crowded aside by younger men. The club includes in its membership a large number of well-known men. At last night's meeting Fred Spoor, local manager for the Pacific Telephone and Telegraph Company, was asked to preside, as McClure objected, saying he had engaged the hall in the name of the Manhood Club, a similar organization of his own. Paulo ensued when Mc-

WOMAN PLAYS HER PART IN THE NEWS

NEW YORK, Jan. 5.—The National American Woman Suffrage Association has announced the appointment of Mrs. Maud Wood Park of Boston as chairman of the "front door lobby" at Washington, known as the "section on legislation."

Mrs. Park, a graduate of Radcliffe, is known as a philanthropist and lecturer. Three others will be connected with the committee on congressional work.

WIFE OF STANFORD HEAD IN ACCIDENT.
PALO ALTO, Jan. 5.—Mrs. Ray Lyman Wilbur, wife of the president of Stanford University, was shaken up in an automobile accident when the machine she was driving collided with the automobile of Mrs. J. M. Hartwell. None of the occupants of the machines was injured. Both automobiles were slightly damaged.

WOMAN VICTIM OF AUTO CRASH.
STOCKTON, Jan. 5.—Mrs. G. Miller of 348 East Sonora street, this city, is dead as a result of an accident on New Year's night when an automobile driven by E. L. Preston collided with a Tuxedo Park Miller car on the Lincoln highway. Mrs. Miller suffered a fractured skull and numerous other fractures. She died without consciousness.

regaining consciousness. Her daughter, Mrs. Olive Clifton, and Albert Capurro, a Stockton grocer, who were also in the auto, have been able to leave the hospital.

LIGHTENSTEIN'S ARE RECONCILED, IS NEWS.
SAN FRANCISCO, Jan. 5.—Milton Lichtenstein, architect, and his wife have become reconciled and are living together at the Hotel Montez, 1925 Sacramento street.

Mrs. Lichtenstein, the former Rose Bloch, filed suit for divorce two months ago charging her husband with slapping her and telling mutual friends that he loathed her. Lichtenstein said yesterday: "Everything has been fixed up—at least I hope it has. The divorce action will be dismissed within a few days."

SOHUMANN-HEINK HONORED BY SOLDIERS.
SAN DIEGO, Jan. 5.—Madame Ernestine Sohmann-Heink was elected honorary president of the officers' mess when she visited the camp of Battalion No. 2 of the Twenty-first Regiment on the grounds of the Panama-California Exposition today. The singer took lunch with the officers and later presented the colors to the officers and men at a review in her honor on one of the plazas.

An Aid to Digestion.
When you have a fullness and weight in the stomach after eating too much, and know that you have eaten too much, should take one of Chamberlain's Tablets to aid your digestion. For sale by Osmond Bros. Drug Stores.—Advertisement.

SERUM FOUND TO CURE PARALYSIS

Chicago Physician Develops Vaccine to Check Child Scourge.

CHICAGO, Jan. 5.—One of the most wonderful of all medical discoveries was joyfully announced today at the Cook County Hospital.

The cure for infantile paralysis, the scourge that has killed and maimed thousands of children, is given to the world by Dr. John W. Nuzum, resident pathologist of the hospital.

Having practiced medicine three years only, this young, slight, very retiring physician has given the world what it has prayed for since the terrors of infantile paralysis were first known.

R. T. Crane Jr. offered \$25,000 last August to the man who would first find a cure for the plague. In all probability this reward will go to Dr. Nuzum.

He has not thought of that. He is still working, as he has been all day and far into the night, making more serum and planning new discoveries.

The January 6 edition of the "Journal of the American Medical Association" has the story of his serum discovery in technical language, but with a word as to what a marvelous find it is.

A few months ago three physicians in different hospitals simultaneously discovered the organism that causes the disease.

They are Dr. E. Rosenow of the Mayo Bros. institution in Rochester, Minn.; Dr. George Mather of the Sprague Memorial Hospital, in Chicago, and Dr. Nuzum.

Dr. Nuzum, however, was the first to develop the serum.

He has isolated the organism, out of the spinal canal, which makes early diagnosis possible. A case now can be determined in twelve hours after the spinal fluid is drawn.

He has made the serum that cures the disease, which can be checked to prevent an epidemic, because of the early diagnosis.

It is possible that people will eventually be immunized against infantile paralysis by vaccination.

The doses of the serum are about one-third of an ounce, administered every other day.

It takes several months to make the serum, the animals being inoculated every seven days.

One of the excellent things about this serum is that it is absolutely harmless. It leaves no bad effects, and can do no damage.

Hurrah! How's This

Cincinnati authority says corns dry up and lift out with fingers.

Hospital records show that every time you cut a corn you invite lock-jaw or blood poisoning, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of a drug called freezone can be obtained at little cost from the drug store, but is sufficient to rid one's feet of every hard or soft corn or callus.

You simply apply a few drops of freezone on a tender, aching corn and soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain.

This drug is sticky but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin.

If your wife wears high heels, she will be glad to know of this advertisement.

OFFICIAL UNDER ARREST IN MEXICO

Attempt to Blackmail Otis Results in Suspect Being Jailed.

LOS ANGELES, Cal., Jan. 5.—The arrest of Francisco Beyro at Mexico City in connection with an alleged plot to seize property of the Colorado River Land Company, was brought about through the efforts of General Harrison Gray Otis, chief owner of the Los Angeles Times, and president of the Colorado River Land Company and a director in the American subsidiary, the California-Mexico Land and Cattle Company, owners of some 480,000 acres of land, all but 8000 acres of which is in Lower California.

A letter signed "Alberto Ruiz," written in Spanish, mailed in Mexico City in October, 1916, and addressed to General Otis, offered to deliver "confessions and documents" which would serve you to destroy "the fruit" of the plans of the enemies of your interests. In Ruiz's letter the name of the company was given incorrectly.

LETTER IS DECOY.
General Otis stated today the letter and his reply to it sent as a decoy were forwarded by him to the company's attorney in Mexico City, with instructions to take whatever action was necessary to cause the arrest of the man who agreed to wait for General Otis' answer until the last day of November.

General Otis said it was not his understanding that the alleged plot to be revealed was in any sense a threat of confiscation by the Mexican government, but rather a plan of Ruiz's to propose a transaction "not a blackmail, but a business."

"Beyro," General Otis said, was not known to him. He said he did not know whether or not he did not "Ruiz" of the letter asking "equitable sum." He said he was surprised to learn Beyro was an employee of the Mexican department of fomento (interior).

The company's attorney at Mexico City was informed as to the mailing of General Otis' reply to Ruiz, conveyed in two separate letters at Ruiz's request—and advised to get the operation of the postal authorities tied up in an effort to seize Ruiz with General Otis' letter in his hand.

PROPERTY RAIDED.
During the Madero revolution, in 1911, the property concerned, a ranch and dam, was estimated at \$14,000 through the slaughter of livestock.

General Otis said the attempt to obtain money apparently was based on the idea title to the land was not good. He said perfect title had been obtained when the land was bought fifteen years ago and paid for in gold. All of it, he said, was bought from private owners, and more than a fifth of it from the late Guillermo Andrade, then Mexican consul here.

Whale's Tail Slaps Launch; Wrecks It
LONG BEACH, Jan. 5.—Mike Stanovich, a fisherman, went to sea today in his gasoline launch, the Standard, No. 32. He was out for four miles off shore, heading for San Clemente Island, a sixty-foot black whale, he said, without provocation switched his tail against the good ship Standard, pitching her skipper overboard. Stanovich clambered back, rescued a skiff just as his launch went down, and was picked up by a fishing schooner.

Indian, Sentenced to Hang, Given Respite
WASHINGTON, Jan. 5.—President Wilson today granted a sixty-day respite to Edward Mabery, an Indian, sentenced to be hanged January 19 on the Indian reservation at Fort George, Spokane, for the murder of his sweetheart.

OVERCOAT SALE

WE ARE OFFERING AN UNRESTRICTED CHOICE OF OUR LARGE AND SELECT STOCK OF
